

#### PORT INFORMATION MEETING

The Pease Development Authority will hold a public information meeting Monday evening (Nov. 26) regarding the status of the scrap metal operations and progress toward installation of a new stormwater management system designed to treat runoff from scrap metal at the Market Street Terminal. It begins at 6:30 p.m. in the Eileen Dondero Foley City Council Chambers.

The PDA Board will accept public comment following a presentation reviewing early historic use of the property; prior development and pier construction; history of scrap metal and other terminal cargos; design and construction of the stormwater management system; environmental matters; and proposed best management practices. Speakers include Ports and Harbors Division Director Geno Marconi; former Portsmouth Library Director and historian Sherm Pridham; PDA environmental consultants; Attorney Robert P. Cheney Jr. of Sheehan Phinney; and former USEPA Regional Administrator Robert Varney of Normandeau Associates who will speak on behalf of Grimm Industries.
