

May 6, 2020

As we wait for COVID19 crisis to subside, the Committee is initiating an on-line approach to address your neighborhood issues. Our committee members can review your concerns and suggest the appropriate ways to tackle them. For example, we **may** recommend the following actions:

- 
1. Find out the best person(s) to contact to help with your issue?
  2. Recommend and forward your concern to the City Council for further action
  3. Perform a study and make recommendations. In the past, members gave a report on dilapidated neighborhood properties to the committee and City Council.
  4. Work with a particular neighborhood on an issue. Last year, a committee member coordinated a street parking program for the Islington Creek neighborhood with the city.

If the neighborhood issue is serious, the committee would convene a virtual meeting via Zoom to recommend further action.
