City of Portsmouth > Public Works Home > Portsmouth Click N' Fix

PORTSMOUTH CLICK N' FIX

Welcome! The Portsmouth Click N' Fix application enables you to request public works maintenance service. Please be advised that this citizen service request form is for non-emergency service issues only.

Please include your contact information in order to ensure a timely response, location accuracy and additional communication if necessary. After you submit your request, you will receive an email with a Service Request ID for reference purposes. City personnel will review your request and respond as resources allow. If you want to check on the status later, you'll need the Service Request ID. A **tutorial video** has been created to show you it's features.

In addition to submitting maintenance requests, citizens can view other community requests throughout the City in our portal below or through our mobile app. The City has also created numerous **Neighborhood Watch Areas** for those interested in monitoring reports specific to where they live.

Should your service request require immediate attention, you should dial **(603) 427-1530**.

We appreciate your request and thank you for helping to improve the City of Portsmouth.

CIP Resident Request Form

3rd Floor City Hall, 1 Junkins Ave, Portsmouth, NH 03801 or by e-mail to
planning@cityofportsmouth.com.

Application for Traffic Calming Measures

Public Works / Parking & Traffic Safety Committee Traffic Calming Request

Parking & Traffic Safety Committee Traffic Calming Request

The City of Portsmouth prioritizes convenient, safe and accessible streets and roadways for all transportation users. As traffic safety issues arise, the [Neighborhood Traffic Calming Program](#) provides a mechanism for neighborhood groups to work with the City. It is intended to ensure that all neighborhood stakeholders are provided the opportunity to be involved. The following outline details the steps involved in participating in the program and the levels of traffic calming that can be implemented to address neighborhood-level traffic issues. Residents with concerns about neighborhood traffic issues should submit this application which will start the process for the City to review and consider possible solutions.
