

PROJECT NARRATIVE

- BUILD A NEW ADDITION TO THE REAR OF GILLEY'S KITCHEN STRUCTURE, FOR PUBLIC BATHROOMS & CUSTODIAL.
- BUILD 2 NEW FOOD KIOSKS
- INSTALL NEW CEDAR FENCE TO CONCEAL TRASH RECEPTACLES.
- INSTALL NEW LANDSCAPING AND HARDSCAPE TO COORDINATE WITH PREVIOUSLY APPROVED IMPROVEMENTS TO NEWBERRY WAY (aka Haven Court).

REVISIONS TO FOOD KIOSKS SINCE LAST MEETING:

1. Moved Kiosk 1 further the South, widening food court and enhancing views from Fleet Street to existing Gilley's building.
2. Swapped service window and door locations at Kiosk 1 (due to relocating Kiosk 1).
3. Changed metal panel cladding and trim, to wood composite trim and fiber cement panel.
4. Changed paint colors of Kiosk siding and trim to match existing Gilley's color scheme.
5. Changed end windows on long sides of Kiosks to spandrel glass to accomodate interior kitchen equipment.
6. Added recessed concealed linear LED soffit lighting.

Materials Schedule

Sheet	Material	Manufacturer	Model/Make	Finish/Color
1	Siding - Fiber Cement Panels	American Fiber Cement Corp.	Cembrit Solid	Luna & Custom red to match existing
2	Wood Composite Trim	Miratec	5/4"x Custom profiles	Field painted
3	Metal Roofing, Standing Seam	ATAS International Inc.	Curved Field-Lok	Vivid Metallic, Jasper (copper color)
4	Gutters	Riverside Sheet metal	Round, Radius	Copper, aged
5	Doors (bathrooms)	TruDoor	Transom, dichroic glass	Steel, painted
6	Doors (food kiosks)	Custom	Wood, Arch Top, round lite	Clear finish, Walnut
7	Windows	Pella	Reserve Contemporary	Alum Clad, aged copper
8	Granite Benches & Curbs	Swenson Granite	Benches	Carolina Coral & Autumn Pink
9	Railings	Custom	Wrought iron	Black

Cembrit Solid

Cembrit Solid is a through-colored panel with an acrylic paint surface.

It's designed this way so it closely matches the surface's acrylic paint

layer. This means if you choose the Solid product line for your façade, every edge of the board will feature the same hue as the surface color, giving the wall an unblemished appearance.

MiraTEC Treated Exterior Composite Trim

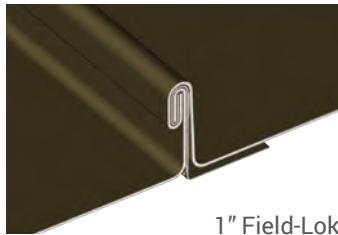

The Original TEC Trim™, MiraTEC Treated Exterior Composite trim is manufactured through the original TEC process and combines the eye-catching beauty of authentic woodgrain with the long-lasting performance of an engineered product. Because it is not hardboard, MiraTEC trim will not delaminate, is moisture, rot and termite resistant, and is backed by a 50-year limited warranty.

MiraTEC Treated Exterior Composite Trim is the first wood composite trim to earn an evaluation report from ICC Evaluation Service (ICC-ES). To view ESR-3043, visit the ICC website at: http://www.icc-es.org/reports/pdf_files/ICC-ES/ESR-3043.pdf

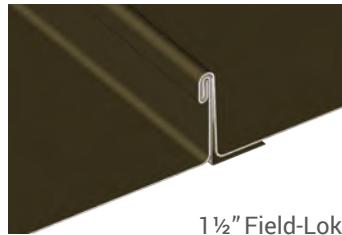

Competitive and long term performance testing shows MiraTEC resists moisture, rot and termites and outperforms the competition in several key areas:

- **Moisture resistant:** As measured by ASTM D1037 for water absorption and thickness swelling.
- **Rot resistant:** Tested per AWPA E16 Field Test for Evaluation of Wood Preservatives to be Used Out of Group Contact: Horizontal Lap-Joint Method.
- **Termite resistant:** As measured by AWPA E7 Standard Method of Evaluating Wood Preservatives by Field Tests with Stakes.

Radius Gutters / Curved Gutters

Custom made to order - Inside and outside curved gutters

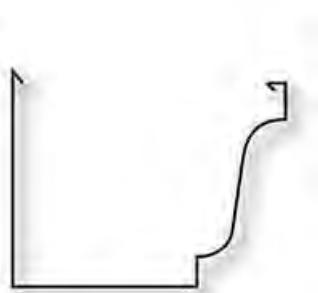

Riverside Sheet Metal specializes in the custom fabrication of radius gutters.

The most common profiles are [half-round](#), [k-style](#), [box](#) and [brownstone](#) gutters, but we can also manufacture custom designed [gutter liners](#) and radius gutter liners.

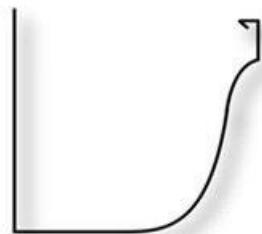

Radius gutters, or curved gutters can most times be manufactured to accommodate regular hangers, or to have custom made hangers installed. Riverside can also pre-install hangers, outlets and end caps.

To have a radius gutter made, we need to know the profile of the curved gutter, the radius of the arc (if not exact, please provide us with a rigid template), if it's an **inside** or **outside** radius and the material for the gutter (normally copper or aluminum).

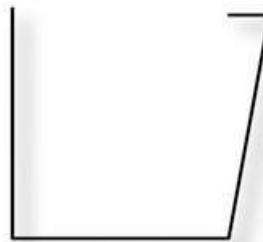

Radius gutters are **normally fabricated all in one piece** (5" and 6" k-style, brownstone, box and half round). Additionally, gutters with custom profiles may be manufactured in different lengths. On those, all seams are thoroughly soldered on copper gutters, ensuring a long lasting joint, while the same are riveted on aluminum gutters.

5" & 6" k-style radius gutter
Up to 11' lengths

Product Overview

Featuring Doors Made in the USA! 

Commercial Hollow Metal Doors (<https://www.trudoor.com/commercial-hollow-metal-doors/>) > Flush Metal Door

Flush Commercial Hollow Metal Doors

The flush hollow metal door, or steel slab door, is the most common commercial steel door and can be used for virtually any application, including industrial and commercial buildings. Flush doors have no cut-outs for anything other than locksets and hinges but can be prepped for other hardware, glass kits, and louvers.

- Heavy-Duty 18-Gauge Steel
- Rigid Honeycomb or Polystyrene Core
- Ideal for Exterior and Interior Applications

Product Overview

3M™ Dichroic Film for Laminated Glass

Compatible with EVA, SentryGlas® or PVB interlayer adhesives.
Available in gold-blue or copper-bronze colors.

Flexible

Film can be printed, cut, patterned, bent, or combined with different glass types or interlayer adhesives.

Versatile

Applications include shading fins, balustrades, exterior glass, partition walls, shower doors, artistic glass and furniture.

Gold-Blue Dichroic Film

In Transmission (Shown)

In Reflection

Yellow ▶ Magenta ▶ Blue

Gold (straight) Blue (angle)

Copper-Bronze Dichroic Film

In Transmission (Shown)

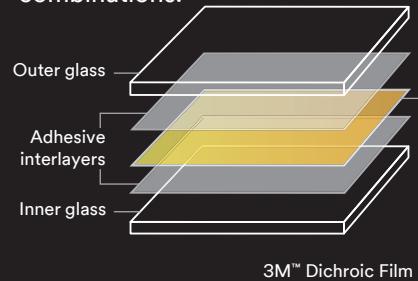

In Reflection

Magenta ▶ Blue ▶ Aqua

Copper (straight) Bronze (angle)

How is it made?

3M™ Dichroic Film is easily laminated between sheets of adhesive interlayers. It's conformable for bent glass applications and works with different glass and PVB combinations.

Solar performance of clear laminated glass

	Reflection Visible	Transmission Visible	Transmitted Energy	Reflected Energy	Absorbed Energy	TSER	SHGC

Simple and sophisticated designs that embody the tenets of pure, contemporary style.

Interior

- **Easy-to-learn Pella Steady Set™ interior installation system**

Pella Steady Set Interior Installation System is a revolutionary, award-winning and safer way to install new construction windows.¹ The simple system is the fastest, most labor efficient wood window installation system with uncompromising quality.² Available on select windows.

- **Clean lines**

Bring your vision to life with expansive glass options combined with some of the narrowest sightlines in the industry.

- **Modern hardware**

Our renowned, exclusive hardware has set the bar for the industry. Featuring sleek lines, the Saldo foldaway crank adds the perfect finishing touch.

- **Architectural interest**

Our industry-leading modern designs with through-stile construction deliver a clean sash joint with pure, 90-degree exteriors. Square grille profiles provide another layer of design flexibility.

- **Virtually unlimited customization**

If you can dream it, we can build it with our most customizable product line. From extra tall to extra wide, Pella can craft unique windows that complement your aesthetic. Custom sizes, grille patterns and designs, finishes, wood types and glass options are available.

- **Tailor-made solutions**

From preliminary drawings to installation, Pella's expert team of architects, engineers, drafters and consultants can work to deliver custom window and door solutions for your project. Partner with Pella to achieve your unique vision without concessions.

- **Cutting-edge innovation**

Our intentional innovations solve modern-day inconveniences without compromising on design. Preserve the beauty of Pella Reserve windows and doors while protecting what matters most with integrated security sensors.

- **Durable interiors and extruded aluminum exteriors**

To help save you time on the jobsite, interior finish options are available in a variety of paints, stains and primed and ready to paint. To complement your exterior aesthetic, choose from our carefully curated color palette or define your own custom color for your project.

- **ENERGY STAR® certified¹**

Pella wood products offer energy-efficient options that will meet or exceed ENERGY STAR guidelines in all 50 states.

- **Testing beyond requirements**

At Pella, our products are tested beyond requirements to help ensure they have long-lasting performance and reduce call-backs for you.

- **Best limited lifetime warranty²**

Pella Reserve products are covered by the best limited lifetime warranty in the business for wood windows and patio doors.²

Screens

Rolscreen®

Rolscreen soft-closing retractable screens roll out of sight when not in use. Available on casement windows.

Integrated Rolscreen®

A concealed retractable screen that moves seamlessly with the sash of a single- or double-hung window – appearing when you open the window and rolling out of sight when you close it.

TuffScreen® by Phifer*

The TuffScreen® is 2.5x stronger than a standard screen.⁸ It is tear, puncture and damage resistant, standing up to pets, children and harsh weather. Available on sliding patio doors.

*All trademarks are property of their respective owners

Flat

InView™ screens are clearer than conventional screens and come standard.

The Best Limited Lifetime Warranty in the Industry

We know your reputation matters and you stake your reputation on quality, dependable products. That's why we have the best limited lifetime warranty in the industry for wood windows and patio doors.²

¹ Some Pella products may not meet ENERGY STAR® guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca.

² Based on comparing written limited warranties of leading national wood window and wood patio door brands. See written limited warranty for details, including exceptions and limitations, at pella.com/warranty or contact Pella Customer Service.

³ Ratings are contingent on product configurations.

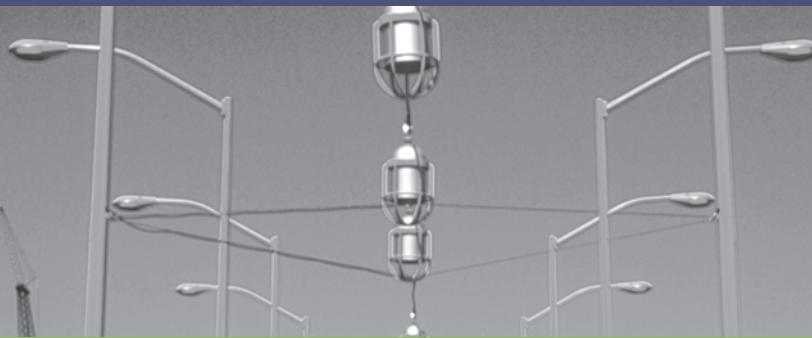

⁴ Color-matched to your product's interior and exterior color. Offering may vary by product type. See Pella sales representative for details.

⁵ Flush multi-slide handle is a Pella exclusive design.

⁶ Flush multi-slide handle is not available in Champagne.

⁷ EnduraClad Plus protective finish is not available with all colors. See your local Pella sales representative for availability.

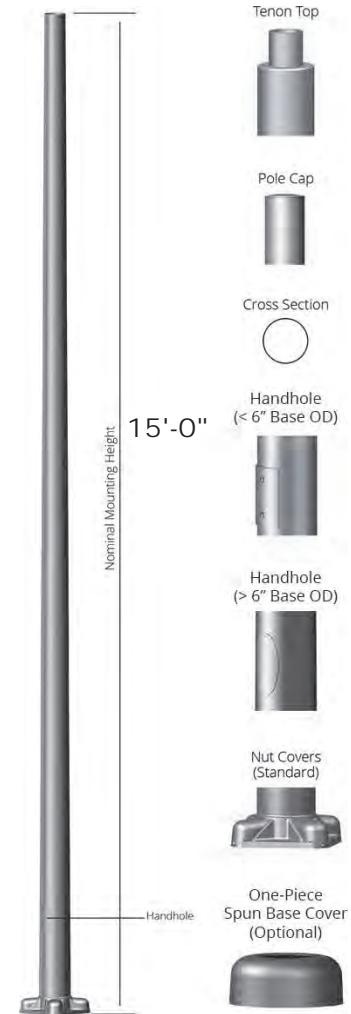

⁸ Based on the composite results of a 5-panel strength analysis comparing TuffScreen and standard screening.

Round Tapered Aluminum Light Poles, Anchor Base

Product Overview

- Pole Shaft** - The pole shaft is extruded and spun from seamless 6063-T6 aluminum.
- Pole Top** - A removable top cap is provided for poles receiving drilling patterns for side-mount luminaire arm assemblies. Other pole top options include Tenon Top, Top Cap Only or Open Top which is typical when the pole top diameter matches the necessary slip-fit dimensions.
- Hand Hole** - A covered hand hole with hardware and grounding provision are provided.
- Anchor Base & Cover** - The anchor base is cast from 356 alloy aluminum and supplied with nut covers. The completed pole assembly is heat-treated to a T6 temper. Optional spun collar, square cast and decorative base covers available as special order.
- Anchor Bolts** - Anchor bolts conform to ASTM F1554 Grade 55 and are provided with two hex nuts and two flat washers. Bolts have an "L" bend on one end and are galvanized a minimum of 12" on the threaded end.
- Hardware** - All structural fasteners are galvanized high strength carbon steel. All non-structural fasteners are galvanized or zinc-plated carbon steel or stainless steel.
- Finish** - Finishes include anodized or painted. Please consult factory for special finishing colors and fixture matching options. When storing light poles outside, remove all protective wrapping immediately upon delivery to prevent finish damage.
- Design Criteria** - Standard EPA (Effective Projected Area) and weight values are based on Standard Commercial Criteria (with 1.3 gust factor) for side and top mounted fixtures only. Satisfactory performance of light poles is dependent upon the pole being properly attached to a supporting foundation of adequate design.
