**CONTENTS, HDC WORK SESSION APPLICATION FOR PROPOSED REMODEL,
ADDITION AND CHANGES TO #127 & #137 HIGH ST., PORTSMOUTH, NH.**

***2-Narrative**

***3-Photographs, Existing Conditions.**

***4-Survey Plan, Existing Conditions (reduced to fit 11x17).**

***5-Site Plan, Existing Conditions, at 1"=10' scale.**

***6-Proposed Site Plan, at 1"=10' scale.**

***7-Proposed Landscaping Plan, at 1"=10' scale.**

***8-#137, Proposed Elevations, ¼"=1'0", reduced to fit 11x17, with Existing Elevations overlayed.**

***9-#137, Proposed Elevations, ¼"=1'0", reduced to fit 11x17.**

***10-#137, Proposed Floor Plans, 1/8"=1'0".**

***11-New Dwelling Unit at the Rear of #137, Proposed Elevations, 1/8"=1'0".**

***12-New Dwelling Unit at the Rear of #137, Proposed Floor Plans, 1/8"=1'0".**

***13-#137 and New Dwelling Unit at the Rear of #137, West Elevation at Lot Line, 1/8"=1'0".**

***14-#127, Proposed Elevations, ¼"=1'0", reduced to fit 11x17, with Existing Elevations overlayed.**

***15-#127, Proposed Elevations, ¼"=1'0", reduced to fit 11x17.**

***16-#127, Proposed Floor Plans, 1/8"=1'0".**

***17-#137 and New Rear Dwelling, Sections and Details.**

**PROPOSED REMODEL, ADDITION AND CHANGES TO #127 & #137 HIGH ST.,
PORTSMOUTH, NH. 12.11.2017.**

NARRATIVE

Tax card information suggests that #127 was built (or placed) in this location in 1820. The structure is clearly of Historic importance as evidenced by its front wall plaque. A building of its size appears on the 1813 map, but with a different orientation.

Tax card information on #137 suggests it dates from 1860.

Both buildings appear on the 1892 map in their current placement. Further research will be undertaken, principally in regard to a more original window and exterior configuration for #127. The exterior of #137 appears to be very original, although the windows and doors have been replaced.

#127 is a Single Family Residence, while #137 has been divided into (3) Units.

Both properties are owned by James and Kimberley Lucy. The Lucy's now live in Greenland but #137 was their primary residence. They appeared before you in 2016 (using a different designer) with a proposal that involved combining the (2) properties, restoring #127, with a minor addition, changing the rear of #137, and adding a (2) family "Townhouse" at the rear of the joined properties. This proposal was not approved by the BOA.

In consultation with the Planning Department we have now assembled a different, more "limited" approach. This involves the following;

-the properties are combined, as previously proposed. The combined properties existing use is (4) Residential Dwelling Units. The Proposed configuration is (3) Dwelling Units and (1) Commercial/Office Unit. The area of the New Dwelling Unit at the rear of #137 (832sf) is less than that of the converted Office Area (1,138sf).

-#127 (Unit #3), is to be restored generally and returned to a more "original" window configuration. As part of this we propose a slight enlargement of the existing rear addition along with the creation of a 2nd Floor deck.

-the main house structure of #137 would be fully restored, but the existing rear shed roof portion would be demolished to 2st Floor level, while preserving the rear Kitchen fireplace and chimney. A 28' x22', 1 ½ story addition (+/- 3'6" knee walls) would be built at the rear of this structure and incorporated to the main house as shown on the plans included. The general appearance of this is to be that of an attached "Coach House" off the rear "Kitchen" to the main house. It is our intention that this structure is clearly, visually, subservient to the main house structure. It will contain a (2) car Garage with Living space in the "roof" above. The First Floor of the original building will be converted into an Office (Unit #1), to more align with the zoning requirements. The Garage and Second Floor space would be dedicated to (1) Residential Unit (Unit #2).

-a new Single Family Dwelling (Unit #4), is proposed to be built across the rear of #137. This 20'x38' structure with 6'x12', Sunroom bump out, is to assume the appearance of a Stable and Service Building. Essentially an "out building" to the Main House of #137. This would be a 2-story, hip roofed, structure, keeping it as low as possible, while still providing amenable space for the occupants.

This approach endeavors to create a descending order of buildings from front to rear, primary, secondary and tertiary. Main house, Kitchen/Coach House, Stable/Service Building. The Driveway and Turnaround would assume the appearance of a "Coach Yard". All other available open space would be utilized as lawn and garden areas. The elements of these would reflect the nature of a Colonial Garden. That is in homage to the Moffat-Ladd House, but subservient to it. Pruned hedge rows and climbing vines would be used to create as much privacy as possible between the units, and to the adjoining properties.

Other than to meet non-combustible requirements of the Building Department, the (3) buildings would be restored and built having all wood exteriors, including Western Red Cedar rooves. Traditional, all-wood, Green Mountain Windows and Doors would be used.
