**Project Description:**

We propose a renovation and addition to a single family home that will stay largely within the footprint of the existing house.

We will utilize the area of the existing enclosed front porch to add additional living space to the first floor. This will add only 6 sq ft. to the current footprint in order to align the wall with the exterior corner of the existing house.

The remainder of the existing closed porch will be opened up, and will wrap around to a new entry on an existing bump out on the left side of the first floor.

We will carry the existing first floor bump out up through the second floor to add additional living space.

We will reframe the roof from a hip roof to a gabled roof and finish the attic to add additional home office/playroom living space.

A deck will also be added on the back of the house.

This project will require the demolition and rebuilding of the current enclosed front porch in order to convert it into living space, as well as the demolition and reframing of the roof in order to add space for a finished attic.

In order to complete the proposed project, we are requesting a variance for dimensional requirements for the proximity of the front addition and back deck to the right hand property line.

Variance Criteria:

- 10.233.21 The variance will not be contrary to the public interest;

The proposed project will not be contrary to public interest as it does not conflict with the purpose of the Ordinance, which is to promote the health, safety and the general welfare of Portsmouth in accordance with the City of Portsmouth Master Plan. The variance will allow for reasonable use of the land in a way that contributes to the essential character of the neighborhood, does not increase the intensity of land use, and does not impact neighboring properties in a negative way.

- 10.233.22 The spirit of the Ordinance will be observed;

The proposed project observes the spirit of the Ordinance as it does not conflict with the purpose of the Ordinance which is to promote the health, safety and the general welfare of Portsmouth in accordance with the City of Portsmouth Master Plan. With this variance, we seek to largely utilize the area of an existing front porch to add additional living space to the first floor in a way that will limit impact on our neighbors, and minimize any increase to intensity of land use by making only minimal changes to the existing footprint of the home. We also seek to add a back deck in a practical location that will allow for the existing floor plan to remain the same.

The proposed project will include improvements to the exterior of the home that will directly contribute to the preservation and enhancement of the visual environment and to the essential character of the neighborhood. Furthermore, the project will include substantial upgrades to systems that will bring the home into compliance with current codes and improve efficiency.

- 10.233.23 Substantial justice will be done;

The proposed project has been designed in a way that minimizes changes to the footprint of the existing home, stays within the essential character of the neighborhood, and is consistent with a reasonable use of the land. It will, therefore, not cause any harm to the general public or other individuals, ensuring that substantial justice will be done.

- 10.233.24 The values of surrounding properties will not be diminished; and

The proposed project will not negatively impact the value of surrounding property. What is proposed will require minimal changes to the footprint of the current home and will include significant aesthetic improvements to the exterior of the home, while keeping within the character of the neighborhood.

- 10.233.25 Literal enforcement of the provisions of the Ordinance would result in an unnecessary hardship.

Due to the unique shape of the property – which angles in towards the front right corner of the house – and the location of the house on the property – which is situated close to the front, right property line – literal enforcement of the Ordinance would result in a an unnecessary hardship by prohibiting the minimal expansion of the front right corner of the house in order to convert space currently occupied by a closed in porch into living area.

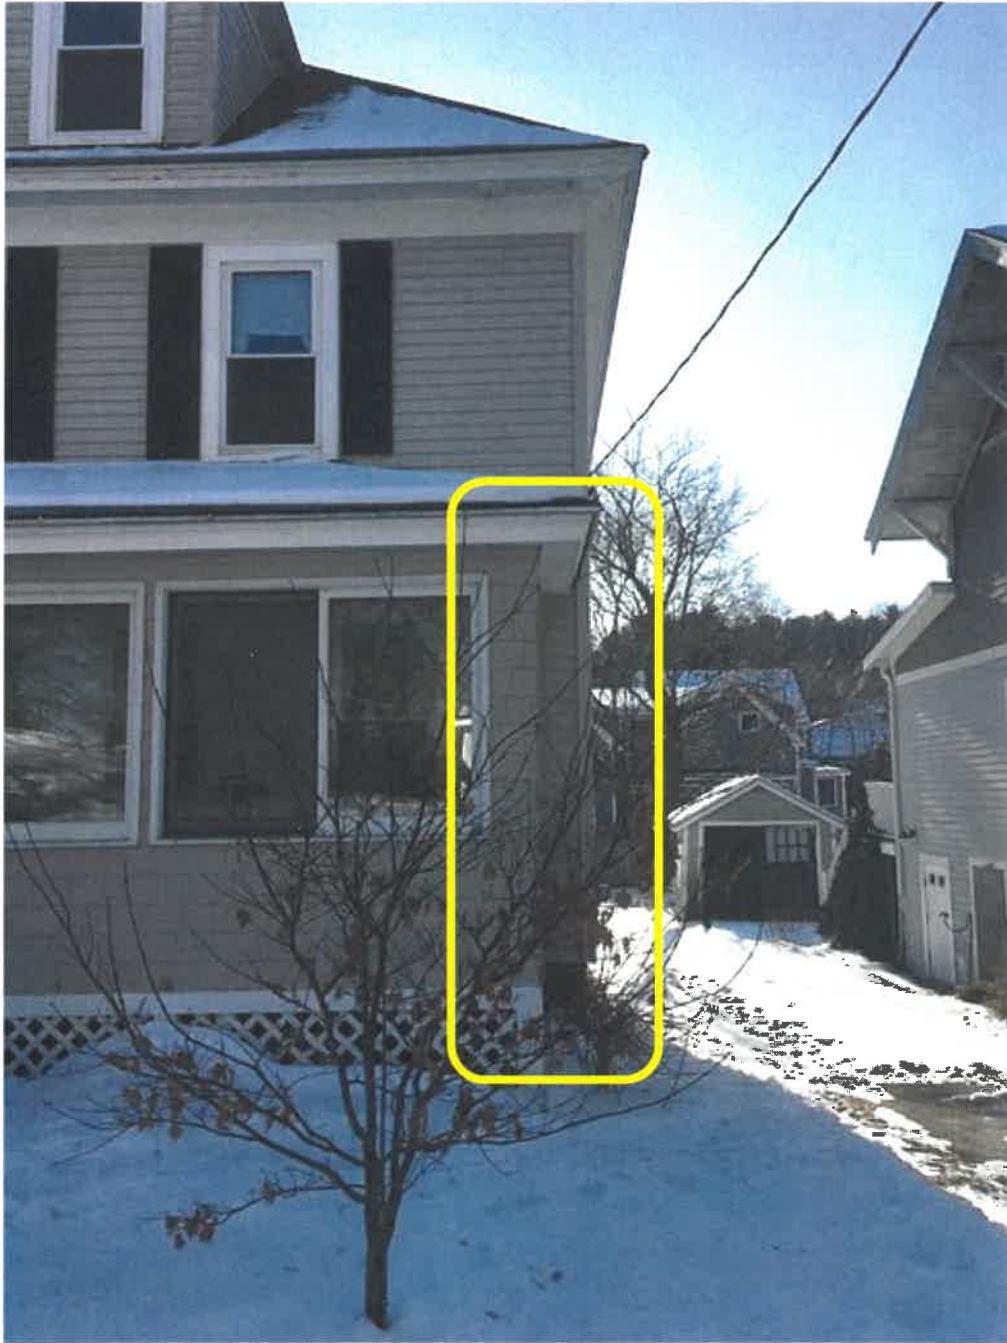

Similarly, the addition of a deck on the back right hand side of the house represents the most practical way in which to add reasonable outdoor space as this location allows for the first floor layout of the home to remain the same. Literal enforcement of the Ordinance would cause unnecessary hardship by forcing rearrangement of the existing layout of the first floor.

We believe that given the limitations of the property, literal enforcement would not serve the purpose of the Ordinance in a fair and substantial way and that the requested variance offers the most practical and least intrusive way to make reasonable use of the property.

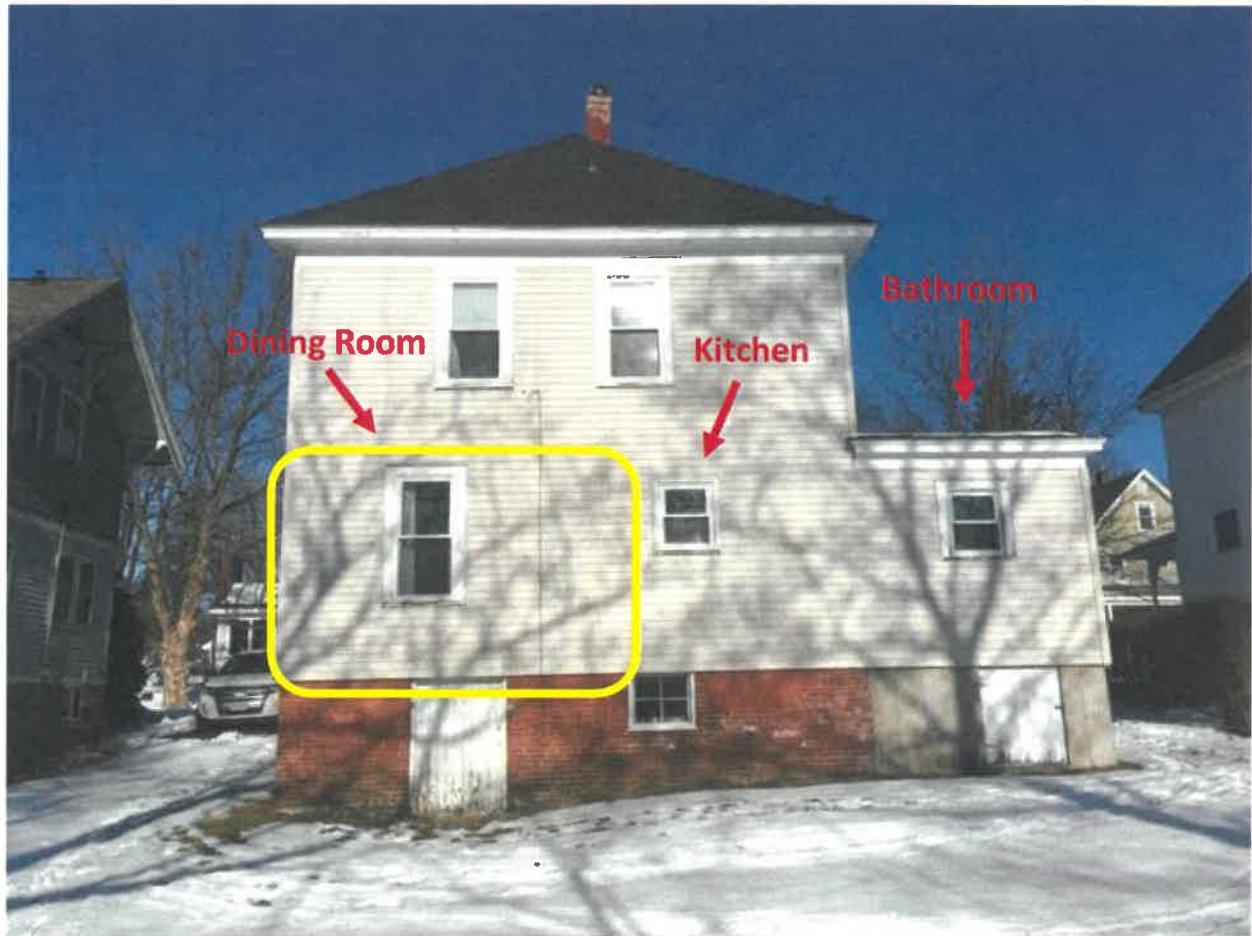

Front view, proposed addition would:

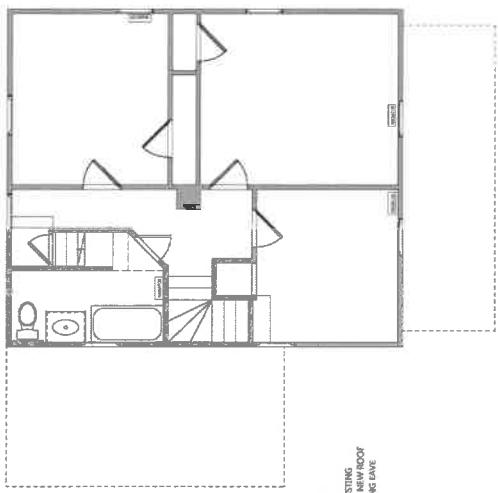

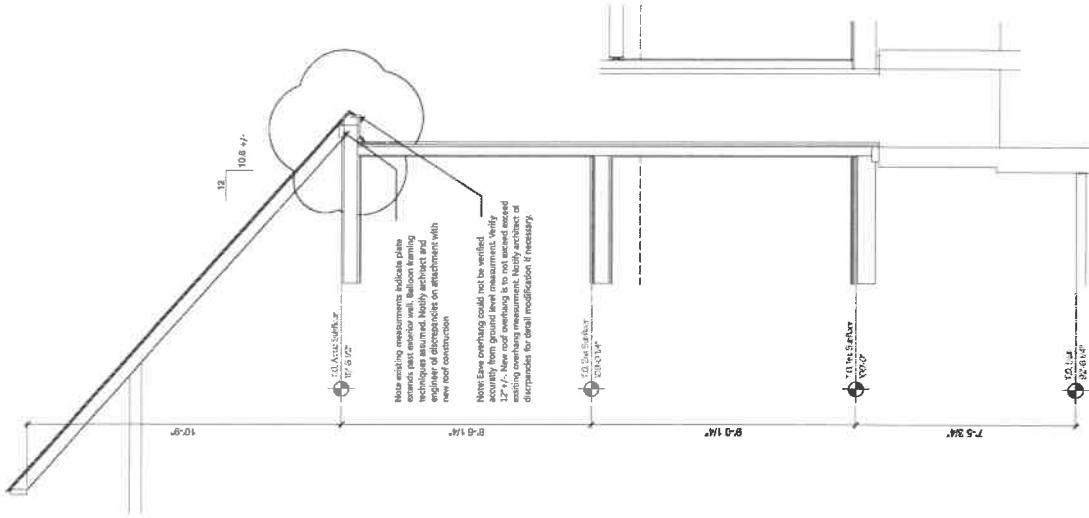

- Carry the existing bump out on the left hand side to the second floor;
- Utilize the footprint of the existing enclosed porch to add first floor living space;
- Add an open porch that wraps around to the left hand side bump out; and,
- Demo the existing hip roof and re-frame a gabled roof to allow for more space in a finished attic.

Front view, proposed change to footprint: The proposed addition will utilize the current footprint of the enclosed front porch to add additional living space to the first floor. In order to do this we will demo the existing enclosed porch and carry a new wall out 1' +/- in order to align the new space with the exterior wall of the existing home.

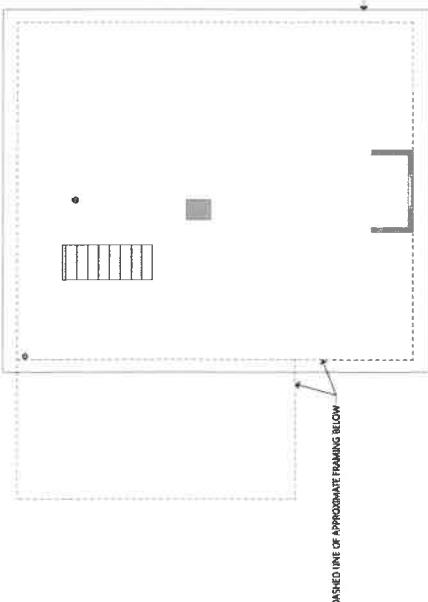

Back View: The proposed deck will be on the left hand side (facing the back of the house). The current window will be opened up allowing for doors to access the deck. This position was chosen as it allows for the existing first floor layout to remain the same by keeping the kitchen, bathroom and dining room in the same locations.

GENERAL DEMOLITION NOTES:

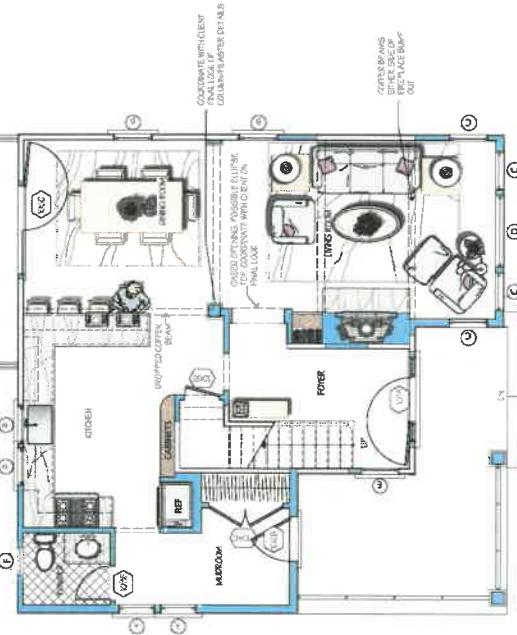

- A. THE OWNER OF THE DEMOLITION PLANS BE ADVISED THE GENERAL MANAGER OF THE DEMOLITION SCOPE. THIS IS RESPONSIBLE FOR ALL ASPECTS OF THE PROJECT.
 B. NO WORKING AREAS ARE TO BE ESTABLISHED ON THE PROPERTY UNLESS APPROVED BY THE GENERAL MANAGER.
 C. NO WORK IS TO BE PERFORMED IN THE AREA OF EXISTING AND NEW ROOFING, EXISTING AND NEW ROOFING SYSTEMS.
 D. NO SMALL PORTABLE EQUIPMENT OR OTHER DANGEROUS ITEMS IS TO BE USED.
 E. NO OVERHEAD CONSTRUCTION, CRANES, OR LADDERS ARE TO BE USED.
 F. NO OVERHEAD AIR DUCTS, WOOD, CLOTHING, AND OTHER MATERIALS ARE TO BE USED.
 G. GC IS TO PROVIDE TEMPORARY SUPPORT FOR ANY STRUCTURAL AREA TO ADEME PROPOSED PROJECT.
 H. BEFORE THE INDIVIDUALS OR CONTRACTORS CAN BEGIN BASED ON THE DOCUMENTS PROVIDED, AN ARCHITECTURE IF AND DESIGN TEAM WHICH IS NOT RELATED TO THE PROJECT WILL PERFORM ANY WORK.
 I. GC IS TO USE APPROVED MATERIALS AND METHODS FOR ALL EXISTING AND NEW ROOFING.
 J. EXISTING ROOFING IS TO BE REMOVED AND REUSED.
 K. GC IS RESPONSIBLE FOR REMOVING AND DISPOSING OF HAZARDOUS MATERIALS SUCH AS ASPHALT, LEAD, PCB'S, AND OTHER SUBSTANCES THAT ARE IDENTIFIED BY THE GENERAL MANAGER AS HAZARDOUS.
 L. GC IS RESPONSIBLE FOR INCARCERATING AND REMOVING HAZARDOUS MATERIALS SUCH AS ASPHALT, LEAD, PCB'S, AND OTHER SUBSTANCES THAT ARE IDENTIFIED BY THE GENERAL MANAGER AS HAZARDOUS.

NOTES

- OWNERS OF RECORD:
LANI FORTIER & JUSTIN PENDARVIS
152 ORCHARD STREET
PORTSMOUTH, NH 03801
BK: 5492 PG: 1007
- THE SUBJECT PARCEL IS ZONED GRA. DIMENSIONAL REQUIREMENTS ARE AS FOLLOWS:

MAXIMUM BUILDING COVERAGE = 25% (1,375 SQ FT)
EXISTING BUILDING COVERAGE = 17.9% (987 SQ FT)
PROPOSED BUILDING COVERAGE = 24.0% (1,319 SQ FT)

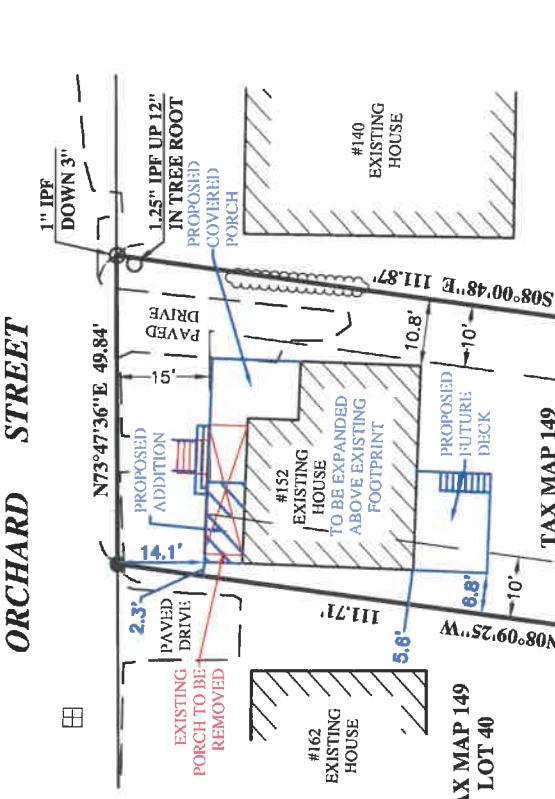

MINIMUM OPEN SPACE = 30% (1,650 SQ FT)
EXISTING OPEN SPACE = 75.1% (4,132 SQ FT)
PROPOSED OPEN SPACE = 68.8% (3,785 SQ FT)

MINIMUM BUILDING SETBACKS:
FRONT = 15'
REAR = 20'
SIDE = 10'

3. THE INTENT OF THIS PLAN IS TO SHOW THE EXISTING AND PROPOSED IMPROVEMENTS ON THE SUBJECT PARCEL.

4. THIS OFFICE HAS NOT LOCATED ANY UNDERGROUND UTILITIES. ALWAYS CALL DIG SAFE PRIOR TO ANY EXCAVATION ACTIVITIES.

5. ITEMS SHOWN IN BLUE ARE PROPOSED. ITEMS SHOWN IN RED ARE TO BE REMOVED.
