Maximum Trimming

- Top Rail ¾", Bottom Rail 2½", Stiles ¼".
- Stile trimming beyond ¼" could expose core stock.
- If initiated, trimming ¾" is permissible.
- Custom sizes are available in various door and grille designs.
- Circle top doors are ¾" oversize.

Note:

Victorian II, Victorian III, Designer Montello and Design A grilles are not available in red oak or mahogany.

transform®

Transform, made from RDI's resin based, state-of-the-art Resalite® core, contains no wood! Transform has the elements you want in a wood railing – the weight, look, and feel of wood, and nothing you don't. Transform will not absorb water so it won't rot and it resists weathering, discoloration, and sagging. Transform's 100% acrylic exterior surface provides long lasting color and a light textured, low-maintenance and durable finish.

FEATURES & BENEFITS

- State-of-the-art Resalite® core with acrylic cap provides a satin, wood like appearance without the maintenance
- One bracket is used for all applications: level, stair, and angle
- Choose from 6' or 8' lengths, 4 top rail profiles, 3 infills, and 4 colors
- Mix it up with mix'n'match – combine Transform posts and top rails with Avalon Aluminum Railing or Excalibur Steel Railing

Transform Cable Rail IS DIY! Check it out.
