Capital Improvement Plan

Fiscal Year 2021 - Fiscal Year 2026

(July 1, 2020 - June 30, 2021)

City of Portsmouth, New Hampshire

The seal of the City of Portsmouth, New Hampshire, is a circular emblem. It features a central illustration of a harbor scene with a large building, a ship, and a smaller boat. The text "CITY OF PORTSMOUTH, N.H." is written around the top inner edge, and "INCORPORATED 1849" is at the bottom. The words "SETTLED 1623" are also visible within the seal's border.

Impact on Operating Budget

Description of box labeled “Impact on Operating Budget” is as follows:

- 1. Reduce – will generate revenue**
The project will either generate some revenue to offset expenses.
- 2. Reduce – will reduce Operating Cost**
The project will reduce operating costs
- 3. Negligible < \$5,001**
The project will generate less than \$5,001 per year in increased operating expenditures.
- 4. Minimal \$5,001 to \$50,000**
The project will generate between \$5,001 and \$50,000 per year in increased operating expenditures.
- 5. Moderate \$50,001 to \$100,000**
The project will generate between \$50,001 and \$100,000 per year in increased operating expenditures.
- 6. High \$100,001 or more**
The project will generate \$100,001 or more annually in increased operating expenditures.

CITY OF PORTSMOUTH

Community Development Department
(603) 610-7232

Planning Department
(603) 610-7216

December 20, 2019

Honorable Mayor Jack Blalock and City Council Members
City Hall
1 Junkins Avenue
Portsmouth, New Hampshire 03801

Dear Mayor Blalock and Councilors,

The Planning Board is pleased to submit its Fiscal Year 2021-2026 Capital Improvement Plan (CIP) for the City of Portsmouth. The CIP identifies the City's short- and long-term capital improvement and infrastructure needs, schedules capital outlays over a six-year time frame, and identifies estimated costs and funding sources for each recommended capital project. To develop this Plan, the Planning Board's Capital Improvement Plan Subcommittee met with City department administrators to review and prioritize proposed projects.

As in prior years, the Planning Board has developed this Capital Improvement Plan with the goal of targeting a stable amount of the City's property tax revenues to capital projects. In order to keep pace with inflation, the Board recommends that capital expenditures from the General Fund be tied to a percentage of the City's overall budget. Specifically, the Board recommends that the City allocate up to 2 percent of the prior year's budget to capital projects, in FY20 this percentage was 1.58%. The Fiscal Year 2020 General Fund budget is \$118.6 million; therefore, the capital expenditure target for Fiscal Year 2021 would be approximately \$2.37 million.

After reviewing departmental capital project requests totaling \$2.016 million, the Planning Board is recommending an appropriation of \$2.016 million or about 1.70% of 2020 budget. Where possible, projects have been linked to achieve the maximum benefit possible from finite fiscal resources.

Projects in the Capital Improvement Plan are assigned priorities according to the time frame within which they need to be completed. Priority "A" projects are those that are needed within the next three years; priority "B" includes projects that should be completed within 4 to 6 years; priority "C" projects can be deferred to more than 6 years in the future; and priority "O" represents ongoing projects such as street and sidewalk upgrades, or continuing multi-year projects.

Along with the annual Budget, the Capital Improvement Plan is a management tool that endeavors to balance competing infrastructure and capital investment needs within the constraints of fiscal prudence. When these interests are meshed successfully, the City's short- and long-term goals will be addressed to our betterment.

Respectfully submitted,

Dexter R. Legg, Chair, Planning Board

Karen Sawyer Conard, Acting City Manager

PLANNING BOARD CERTIFICATE

RESOLUTION ADOPTING A RECOMMENDED PROGRAM OF MUNICIPAL CAPITAL IMPROVEMENT PROJECTS PURSUANT TO CHAPTER 674, SECTION 5 OF THE NEW HAMPSHIRE REVISED STATUTES ANNOTATED

WHEREAS the Planning Board of the City of Portsmouth has the duty under the provisions of RSA 674:1 to prepare and amend a Master Plan to guide the development of the community; and

WHEREAS on February 16, 2017, the Planning Board adopted a Master Plan entitled "Portsmouth 2025 Master Plan"; and

WHEREAS the Planning Board may under the provisions of RSA 674:1 recommend programs for the development of the municipality, programs for the erection of public structures, and programs for municipal improvements, each of which shall include recommendations for its financing; and

WHEREAS the Planning Board, having adopted a Master Plan, is authorized under RSA 674:5 and City Ordinances to prepare and adopt a recommended program of municipal capital improvements projected over a period of at least 6 years;

NOW, THEREFORE, BE IT RESOLVED by the Planning Board of the City of Portsmouth that the document entitled "Capital Improvement Plan, FY 2021 – FY 2026" be and hereby is adopted as the Board's recommended program of municipal capital improvement projects for the City of Portsmouth, New Hampshire.

ADOPTED: December 19, 2019

ATTEST:

Dexter R. Legg, Chair, Planning Board

This page is intentionally blank.

SECTION I: INTRODUCTION

The Capital Improvement Plan (CIP) sets forth a multi-year schedule and financing strategies for accomplishing necessary public improvements. Careful development of and adherence to the CIP ensures that needed facilities are provided within the City's financial capability. In combination with the annual City budget, the CIP has a major impact on the allocation of fiscal resources, and is thus one of the most important documents considered by the City Council.

The purposes of the CIP are to:

1. Implement needed improvements on a scheduled basis
 - Provides a complete picture of the City's major development needs
 - Coordinates activities of various City departments and agencies
 - Assists in implementing recommendations of the City's Master Plan
2. Guide the allocation of fiscal resources
 - Establishes fiscal priorities for projects
 - Balances the use of funding sources
3. Help plan for future City expenditures
 - Discourages piecemeal improvements and duplication of expenditures
4. Ensure that needed facilities are provided within the City's financial capability:
 - Informs the taxpayers of anticipated future improvements
 - Helps to schedule major projects to reduce fluctuations in the tax rate

As used in the CIP, a capital improvement project is defined as a major fiscal expenditure that falls into one or more of the following categories:

1. Land acquisition;
2. Construction or expansion of a public facility, street, utility or public infrastructure;
3. Rehabilitation of a public facility or public infrastructure provided the cost is \$50,000 or more;
4. Design work or planning study related to a capital project or implementation of the Master Plan;
5. Any item or piece of equipment, non-vehicular in nature, that costs more than \$50,000 and has a life expectancy of 5 or more years; or
6. Replacement and purchase of vehicles which have a life expectancy of more than 5 years or cost more than \$50,000.

The capital planning process is coordinated by the Finance and Planning Departments under the direction of the City Manager. Capital project requests are initially formulated by City department heads and submitted to the Finance Department. Members of the public may also submit project requests, which are reviewed by City departments and incorporated into the departmental project submissions as appropriate.

Each project request includes the following information:

1. Project name

2. Project number. These numbers are broken down into 4 parts:

- **Project Category**

- VE – Vehicles & Equipment
- BI – Buildings & Infrastructure
- IS – Information Systems Management
- TSM – Transportation System Management
- EF – Enterprise Funds
- COM- Combined Funding

- **Year of Project Submission**

- **Submitting Department**

- FD – Fire Department
- PD – Police Department
- SC – School Department
- FI – Finance Department
- PL – Planning Department
- CD – Community Development Department
- PW – Public Works Department
- PW/NH – Public Works & State of New Hampshire
- PL/NH – Planning Department & State of New Hampshire
- IT – Information Technology
- WD – Water Division
- SD – Sewer Division

- **Place within the CIP plan**

3. Project location

4. Impact on operating budget

5. Project type

- a. Land acquisition;
- b. Construction or expansion of a new public facility or public infrastructure;
- c. Non-recurring rehabilitation of a public facility or public infrastructure provided the cost is \$50,000 or more;
- d. Design work or planning study related to a capital project or implementation of the Master Plan;
- e. Any item or piece of equipment, non-vehicular in nature, that costs more than \$50,000 and has a life expectancy of 5 or more years; or
- f. Replacement and purchase of vehicles which have a life expectancy of more than 5 years or cost more than \$50,000

6. Project priority/Proposed time frame:

- (A) Implement within 3 years
- (B) Implement within 4 to 6 years
- (C) Implement after 6 years
- (O) Ongoing allocations of funding are required for this project

7. Project justification (does the project meet one or more of the following criteria):

- Identified in planning document or study
- Improves quality of existing services
- Provides added capacity to existing services
- Addresses public health or safety need
- Reduces long-term operating costs
- Alleviates substandard conditions or deficiencies
- Provides incentive to economic development
- Responds to federal or state requirement
- Eligible for matching funds with limited availability

8. Cost estimate and proposed funding sources

After City department heads submit their capital project requests, an Advisory Committee of the Planning Board meets with department representatives to review these requests. The Advisory Committee then evaluates and prioritizes each request and makes recommendations to the Planning Board.

The following factors are considered when prioritizing projects:

1. Project requirements – Is the project required to meet legal, compliance, or regulatory requirements?
2. Timing – How soon does the project need to be implemented to address the needs identified?
3. Strategic alignment – To what extent is the project aligned with other city projects, policies, processes?
4. Public value – How much value does the outcome of this project provide to the general public? How much public support is there for implementing this project?
5. Finance planning – Is the project fundable in the time frame identified, are there available funding sources for this project?

The Finance Department incorporates the Advisory Committee's recommendations into a recommended Capital Improvement Plan which is reviewed and adopted by vote of the Planning Board in accordance with State statute. Finally, the Planning Board's adopted CIP is conveyed to the City Council for public hearing and adoption in accordance with City Charter requirements.

SECTION II: METHOD OF FINANCING

Capital improvement projects are funded from a variety of sources. These funding sources include: General Fund (GF); Federal/State Grants; Bond or Lease; Revenues (Parking, Water and Sewer); State Revolving Loan Fund (SRF) and Public Private Partnerships (PPP).

General Fund – The most commonly used method of financing capital projects is through the use of the General Fund. The General Fund includes the money raised by the local property tax for a given year. When a project is funded with General Fund revenues, its entire cost is paid off within the year. The intent is to budget annually a certain amount from the General Fund (approximately 2% of previous FY General Fund total Budget) to address City priorities. If the City has the financial capacity to pay for a project in a given year, the cost to the taxpayer will generally be less than if bonded because there are no interest payments to be made. However, it does have the effect of lumping expenditures into one year, thereby giving a peak tax loading.

Grants – One source of grants is from other levels of government, for example, the Environmental Protection Agency, the NH Department of Health and Human Services, U.S. Housing and Urban Development, NH Department of Environmental Services, and the NH Department of Transportation. Generally, these Federal and State sources provide an outright grant or matching funds to go with locally raised funds. The City also pursues non-governmental private grants when applicable.

General Obligation Bonds – Bonds are used to finance major municipal capital projects. These are issued for a period of time generally extending from ten to twenty years during which time principal and interest payments are made. They are secured by the raising of property taxes. The time payment has the advantage of allowing the costs to be amortized over the life of the project and of allowing taxpayers to pay a smaller amount of the project's cost at a time. However, they do commit the City's resources over a long period of time and decrease the flexibility of how yearly revenues can be utilized. The City's bonding capacity is a limited resource. All projects that are to be bonded should meet minimum eligibility criteria and must have a life span at least equal to the bond life.

Revenues – The City has established two Enterprise Funds for Water and Sewer. The needs for these two divisions are met through the revenues raised from providing that particular service. Therefore, there is no impact on the City's tax rate. Additionally, the City has established a Parking and Transportation Fund (Special Revenue Fund). Revenues derived from the City's parking functions are transferred to this fund in order to operate the City's parking and traffic related activities.

State Revolving Loan Fund – This is a program offered through the NH Department of Environmental Services for the purpose of providing low interest rate funding for approved water pollution control projects. State approval of applications does not bind the City to any of the individual projects but does lock into a low interest rate loan. Upon completion of projects, the loan becomes a serial bond payable by the City of Portsmouth Sewer or Water Fund to the State of NH. Payback is over a five to ten year period and Enterprise Revenues are utilized for

that purpose. In addition, the City applies for State Aid Grant funding to assist in repaying SRF loans up to 30% of the total project cost.

Public Private Partnership – This method of financing involves joint funding of a particular project between the City and one or more private sector or non-governmental partners. This method is used for projects that will benefit the partners and help to minimize costs to local taxpayers.

Deciding on which method of financing should be selected for a given project is dependent on a number of factors. These include the cost of the project, its useful life, the eligibility of the project to receive funds from other than local taxes, long-term and short-term financial obligations of the City and a project's relative priority in terms of implementation. The Capital Improvement Plan seeks to maximize the potential benefits from all revenue sources.

SECTION III: FINANCIAL SUMMARY

Section III contains useful summary information detailing the specifics of the Capital Plan. These include the following:

1. Capital Improvement Plan Summary, all funds (FY 21-26);
2. A graph displaying the FY 2021 Distribution of Capital Improvement Plan Funding (Non-Enterprise Funds);
3. General Fund, Capital Outlay Projects only (FYs 15-21);
4. Computation of Legal Debt Margin as of June 30, 2019;
5. Long-Term Debt Service Forecast Model (General Fund);
6. Projected Net Long-Term Debt Service as a Percentage of the General Fund Budget;
7. Long-Term Debt Service Forecast Model (Parking Fund);
8. Long-Term Debt Service Forecast Model (Debt Service Fund);
9. Long-Term Debt Service Forecast Model (Water Fund);
10. Long-Term Debt Service Forecast Model (Sewer Fund);
11. Long-Term Debt – Outstanding Balance (All Funds).

I. VEHICLES AND EQUIPMENT

VE-07-FD-01: AMBULANCE REPLACEMENT PROGRAM

Department	Fire Department
Project Location	Station 2 (2010 Lafayette Rd)
Project Type	Replacement or Purchase of Vehicle
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Reduce (will reduce Operating Costs)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study: Self-Assessment of FD Operations: April 2015	Y
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	Y
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This program is a regular replacement schedule for the City's ambulances. The 2013 Ambulance is scheduled for replacement in FY20. Funds include complete set-up including radio, lettering, striping, and equipment. This is the second half of total funds required for this project.

VE-20-FD-04: HYDRAULIC RESCUE TOOL REPLACEMENT

Department	Fire Department
Project Location	All Stations
Project Type	Equipment (non-vehicular)
Commence FY	2020
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study	
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	Y
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project would provide for the replacement of the department's compliment of gas-powered hydraulic rescue tools, most commonly referred to as "jaws of life", with new generation battery-powered rescue tools. The replacement is recommended based on the age of current equipment along with the advantage of more compact, versatile, powerful and cordless technology for emergency extrications from vehicles and other entrapments.

Description: This project will continue the practice of replacing personal protective clothing every 5 years so that all personnel have a primary and secondary set of structural firefighting gear that is no more than 10 years old as required by NFPA 1851. Best practices of firefighter cancer prevention allows each firefighter to have a secondary set of gear so that an acutely soiled set can be cleaned while the firefighter remains on duty and in service.

VE-21-FD-06: SCBA REPLACEMENT

Department	Fire Department
Project Location	All Fire Stations
Project Type	Equipment (non-vehicular)
Commence FY	2024
Priority	B (needed within 4 to 6 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: This project would provide for the replacement of our entire compliment of Self Contained Breathing Apparatus (SCBA). The replacement of this essential equipment is necessary based on the current age and wear of our existing units. Updated versions of these units provide for more air and breathing capacity and weigh less than our current SCBA. Additionally, the newer version has a re-tooled profile to provide better mobility and flexibility.

BI-20-FD-07: FIRE AND RESCUE TRAINING FACILITY

Department	Fire Department
Project Location	Public Works Land, Peverly Hill Road
Project Type	Other (explained below)
Commence FY	2022
Priority	B (needed within 4 to 6 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: This scope of this project is to identify for future consideration a fire and rescue training facility on the Department of Public Works property as part of the site's master plan. The facility will consist of multiple 40' and or 20' containers configured and fabricated to represent residential and commercial buildings with multiple rooms and levels. The project will also include appropriate site work.

BI-21-PD-10: POLICE FACILITY DEFICIENCIES & REPAIR PROJECT

Department	Police Department
Project Location	Police Department
Project Type	Rehabilitation of a Facility
Commence FY	2021
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: A 2014 space needs study of the police facility identified deficiencies in space allocated to the police department as well as deficiencies in function. In addition, a 2018 public presentation provided insight into some of the unique needs and requirements of a police facility. Although a funding request for a new facility has been included in the CIP plan since the space needs study was completed, citywide costs have to be prioritized. A new police facility is still on the list. Over the years, the current facility has fallen into disrepair, and the space needed for staff and police functions, is overcrowded, insufficient, and inefficient. Major overhauls of multiple areas are needed, including, but not limited to: security, ADA compliance, IT infrastructure and control room, evidence processing and submittal areas, restructure and renovation of Detectives, restructure and renovation of all locker rooms, temperature and humidity control in specified areas, parking, equipment storage, archive space upgrades, additional garage/vehicle evidence bays, upgrades to walls, lighting and flooring-to include asbestos abatement and paint, electrical, plumbing, and HVAC upgrades. Although facility, space and operational efficiencies will still be a major issue after this project, as defined in the space needs study, this project addresses immediate facility deficiencies until a new police facility is approved.

BI-17-FI-13: PERMANENT RECORDS STORAGE FACILITIES

Department	Finance Department/ City Clerk
Project Location	City Hall
Project Type	New Construction/ Refurbishment
Commence FY	2018
Priority	A (Needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: Many City records are required by law to be preserved and held indefinitely. In FY18, the CIP funded the rehabilitation of the first document storage area to construct a permanent record facility within City Hall. This Permanent Records Room features a new waterless [Inergen® Gas Fire Suppression System \(nitrogen 52%/argon 40%/carbon dioxide 8%\)](#), local temperature control and monitoring, humidity monitoring and archival shelving for many of the City's oldest and most important records not located in the City Clerk's vault.

The City's Archive Room houses records from many departments including the City Clerk, Finance, Planning, Public Works, Tax, Assessing, Human Resources, Trustees, and the Fire Department. The facility also features a separate document quarantine area for documents contaminated with mold, red rot or maladies that may potentially spread to healthy documents. The documents in this room range from the 1700's to current permanent records. With numerous documents still in need of safe housing, City Staff are looking to expand both the storage and quarantine areas of this facility.

BI-18-FI-14: HISTORIC DOCUMENT RESTORATION, PRESERVATION AND SCANNING

Department	Finance Department/ City Clerk
Project Location	City Hall
Project Type	New Construction/ Refurbishment
Commence FY	2018
Priority	A (Needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: By law, the City is required to keep certain types of documents on a permanent basis (i.e. tax warrants, assessing documents, city council records, etc.). These documents are aging and many are showing signs of deterioration. The requested funds will be utilized to preserve these documents as well as scan them for preservation purposes to digital format (pdf/a) and/or microfilm. The monies requested fund both City Clerk (\$50,000) and Finance Department (\$50,000) Archival Records preservation.

The Finance Department currently oversees the City's archival space for permanent records that are not held in the City Clerk's Vault. These records cover many departments, including Finance, and range in age from 20-300+ years old. This project funds the preservation of documents held in the quarantine part of this archival space, documents currently inflicted with mold or red rot, inflections that hasten their deterioration. A list of documents with current preservation needs can be found in the FY21-26 CIP in Appendix III. The total amount of funds needed to preserve the contaminated documents, overtime, will exceed \$3 million dollars and with the current funding (\$100,000 per year) take over 20 years to complete.

Description: The Library's 41 upholstered chairs and 6 upholstered love seats were purchased in 2006. Averaging 350,000 visitors to the library per year, this furniture has been used extensively and is due for replacement. In alignment with our building's LEED certification, we propose the purchase of replacement chairs and love seats that are built in the United States using sustainable practices and materials.

Description: This project funds the purchase of land that has been determined should be municipally owned. For the most part, ownership is usually sought to secure environmentally sensitive areas to purchase the development rights to a particular parcel, or for some municipal use. Funds can be used as match for other grants and may be used in conjunction with the Conservation Fund.

BI-19-PL-17: VAUGHAN-WORTH-BRIDGE STRATEGIC VISION DEVELOPMENT

Department	Planning Department
Project Location	Publicly-owned land & Rights of Way between Foundry Place Garage, Islington Street & Vaughan Mall
Project Type	Design work or planning study
Commence FY	FY19
Priority	C (Can be placed on hold for after 6 years)
Impact on Operating Budget	Minimal (\$5,002 to \$50,000)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study: 2017 Strategic Vision for Vaughan, Worth and Bridge	Y
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: In 2017, the City Council adopted a strategic vision for the area encompassing the Vaughan Mall, Worth Lot and Bridge Street Lot. The Vision is to transform the surface parking and Vaughan Mall into new and renewed public spaces. This project identifies funding to take steps to develop this vision, which may include concept development; design development and site analysis; and funding for interim demonstration projects to illustrate the Vision as well as progressing the vision to master plan level design.

Description: Throughout 2018, the City's work to control the redevelopment of this prominent downtown parcel intensified with an extensive public participation process and selection of development partner. Following the submittal of an application to the National Park Service and its acceptance, additional work will be associated with implementing the application and overseeing the redevelopment partnership agreements. This project provides additional funding for these purposes.

Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: In addition to adding to the inventory of recreation fields, the 2010 Recreation Needs Study and the 2015 Recreation Field Report, highlighted opportunities for resurfacing or reconstructing existing fields in order to increase playability and improve service. Needed investments to add or improve playability include addressing drainage issues, improving turf systems, and/or converting “practice” fields to competition fields. The 2015 report highlights opportunities at the High School Athletic Complex, Clough Field as well as the elementary schools and Lafayette ball field.

Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The 2010 Comprehensive Recreation Needs Study found the City's indoor facilities are programmatically outdated, in need of significant capital improvements, and require individuals to travel from one facility to another to participate in all types of indoor recreational programming. Since this time, the City has added a Youth Recreation Center co-located at the Middle School and soon will add the multi-generational Senior Activity Center/Community Center. The need for community center facilities will be assessed following opening of the new center, whose lot offers potential for future growth.

Description: This project would replace the antiquated heating and air conditioning system at City Hall. The existing system is deteriorating and does not provide reliable heating and cooling for the facility. The current piping for heating and cooling is made of black iron, which is from an old steam system. This system is not suitable for forced hot water heating. Problematic issues include pipe corrosion, heavy condensation and leaks, which can contribute to mold growth and results in additional maintenance.

Description: The purpose of this project is to design and build a new recycling center at the Public Works Department. The new recycling center will improve safety and the experience of residents dropping material off, while adding infrastructure to consolidate recycling and solid waste for more efficient transport, additional disposal options and cost savings. The project is in the preliminary design phase and an updated cost estimate will be developed.

Description: The City is responsible for maintaining the six historic cemeteries including Point of Graves Burial Ground, North Cemetery, Union Cemetery, Pleasant Street Burial Ground, the African Burying Ground, and Cotton Cemetery. In these cemeteries, the City is not only responsible for the upkeep of the grounds (regular mowing and landscaping), but also the headstones; hill, ledger, and chest tombs; cemetery walls and related structures. The City carried out an assessment of these valuable historic resources and created a prioritized list of restoration and repair projects which will be carried out over a multi-year period.

IS-20-IT-47: CONTINUITY OF OPERATIONS (COOP) – REDUNDANT SITE BUILDOUT

Department	IT Department
Project Location	To Be Determined
Project Type	Equipment (non-vehicular)
Commence FY	2020
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study: Continuity of Operations Plan (COOP)	Y
Improves Quality of Existing Services	
Provides Added Capacity to Serve Growth	Y
Addresses Public Health or Safety Need	Y
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project is a critical need to provide redundancy in City IT operations, and will enable the City to operate essential functions in the event that City Hall is damaged or out of service for a period of time.

The project includes: Reengineering the current network (MAN) to create a secondary access location for an emergency failover, add a virtualized server and build the capacity to operate at an alternate location.

Improves Quality of Existing Services	Y
Provides Added Capacity to Serve Growth	Y
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	Y
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project is a planned upgrade to the existing financial software. Due to the size and cost of this project, it is recommended that this be spread out over 3-4 years, with an implementation date in FY 24. This upgrade will enable the City financial department and other departments to streamline their current process and offer more services to the residents.

The project includes: upgraded software and hardware, review all the 3rd party software and with the goal of streamlining as much as possible with one main application.

IS-21-EM-50: EMERGENCY MANAGEMENT OPERATIONS CENTER A/V UPGRADE

Department	Fire Department - Emergency Management Division
Project Location	Emergency Operations Center at Fire Station 2
Project Type	Equipment (non-vehicular)
Commence FY	2022
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study	
Improves Quality of Existing Services	Y
Provides Added Capacity to Serve Growth	Y
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	Y
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project will upgrade and modernize the George I. Pierce training room at station 2. This room is used as our Emergency Operations Center and the audio/visual and interconnecting capabilities are 10 years old and becoming obsolete. This new system will allow for future technology upgrades as well as allowing all devices to be interconnected by a standardized HDMI format.

IS-17-PD-51: PUBLIC SAFETY RECORDS MGMT./COMPUTER AIDED DISPATCH SYSTEM

Department	Police Department
Project Location	To Be Determined
Project Type	Other (explained below)
Commence FY	2022
Priority	B (needed within 4 to 6 years)
Impact on Operating Budget	Minimal (\$5,002 to \$50,000)

Description: The current RMS/CAD systems are handled with IMC/Tritech software. Although this system has served the needs of the departments for 15+ years, it no longer meets the evolving public safety technology. It is a single-jurisdiction antiquated software platform with: limited enhancement & development, redundancy of effort, limited transparency/visibility to community, limited mobile and web-based functionality that decreases officer productivity, and requires specialized IT capabilities and long lead times for reports and crime analysis challenges.

A new software is sought for improved mobile computing and analysis tools, management dashboards, multi-disciplinary, and multi-jurisdictional expandable capabilities for future potential collaborations with surrounding communities/mutual aide.

Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	Y
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: A now abandoned rail corridor between Portsmouth and the Massachusetts border includes 3.6 miles in Portsmouth. This corridor has been designated as the future off-road route of the NH Seacoast Greenway. In 2019, the NH Department of Transportation acquired the rail corridor and also has secured some federal funding to convert it to a multi-use trail. Design and construction of the trail will be done through a collaboration between NHDOT and corridor communities. The project cost estimates assume that the City will be responsible for 40% of construction costs to create a gravel trail base as well as the additional costs required to build a paved surface as well as any amenities such as trail access areas and interpretive signs.

TSM-21-PL-56: TRAIL DEVELOPMENT PROJECTS

Department	Planning Department
Project Location	Great Bog and Area North of Lang Road
Project Type	Construction or Expansion of a public facility, street or utility
Commence FY	2021
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Minimal (\$5,002 to \$50,000)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study: Open Space Plan	Y
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	Y
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	Y

Description: Construction of two trails.

1. Great Bog - connections to: rail trail, Buckminster neighborhood, and Route 33/Greenland Road. Project would include construction of pedestrian trail including boardwalks and potential for accessibility.
2. Lang Road at Stetson property: to include trail development, parking area and accessibility. Enhances connections throughout Berry's Brook headwaters.

Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	Y
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The City’s Wayfinding System is designed to help visitors navigate efficiently to major destinations within the Downtown and throughout the City, using a variety of tools (both physical and virtual). The system is designed to assist pedestrians, bicyclists and transit users, as well as motorists. The program includes a phased program for implementation over several years; and is designed to be easy to maintain.

TSM-19-PL-63: HODGSON BROOK

Department	Planning Department
Project Location	Hodgson Brook from North Mill Pond to Route 1 Bypass
Project Type	Rehabilitation of a Facility
Commence FY	TBD
Priority	C (Can be placed on hold for after 6 years)
Impact on Operating Budget	

Description: Hodgson Brook restoration and public access will involve restoring the brook's shoreland and habitat and creating a passive path for pedestrians for the portion of Hodgson Brook that extends from the North Mill Pond Multi-Use Path to the Route 1 Bypass. As proposed this project would require "daylighting" the brook in some locations by the relocating existing buildings as well as associated environmental remediation. This project is anticipated to be done in collaboration with private development.

Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	Y
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project calls for creation of a walkable and bike-able connection for neighborhoods and destinations along Route 1 through construction of ten ft. sidepaths on each side of road in available NH DOT right-of-way. This will be a phased project, the first phase of which will extend from the intersection of Elwyn Road/Peveryly Hill Road to Heritage Ave to correspond with the [NHDOT Route 1 Corridor Project](#). Most of the project falls within NHDOT jurisdiction, and requires coordination and permission from the state agency to implement and maintain. A separate but related project would add ADA-Compliant crosswalks and actuated pedestrian signals to cross Lafayette Rd at key intersections.

TSM-19-PW-70: SAGAMORE AVENUE SIDEWALK

Department	Public Works
Project Location	Sagamore Ave
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2021
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study	
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	Y
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project will entail construction of a new sidewalk along Sagamore Avenue from Odiorne Point Road to the old Moose Club access road.

Eligible for Matching Funds with Limited Availability	

Description: This project provides pedestrian accommodations (either sidewalk or multi-use path) on Banfield Road from Ocean Road to Heritage Drive. These accommodations were identified by the [2015 Banfield Road Master Plan](#). They will connect Ocean Road to the future Hampton Branch Rail Trail. Design engineering and permitting is currently being completed in conjunction with the Banfield Road Culvert Design Project.

Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The Public Works Department created and conducted a conditional sidewalk assessment of City maintained sidewalks. The assessment contains detailed information on 77 miles of sidewalk, not including those within parks, fields and other City maintained facilities. The results give staff a clear depiction of the overall conditions. This project consists of sidewalks identified as being in poor to fair condition. Reconstruction work is based on need and coordinated with other street and utility improvements.

TSM-10-PW-73: CITYWIDE TRAFFIC SIGNAL UPGRADE PROGRAM

Department	Public Works
Project Location	Citywide
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study	
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The City continues to replace antiquated signal systems throughout the City. These replacements improve traffic flow, emergency response, efficiency and safety at these intersections. The upgrades include new traffic signals, controllers, pedestrian indicators and minor roadwork at each intersection. The signal system at Middle Street and Miller Avenue / Summer Street has been identified as needing improvements.

Eligible for Matching Funds with Limited Availability	

Description: [The Parking and Traffic Safety \(PTS\) Committee](#) receives numerous requests from neighborhoods throughout the City regarding traffic volumes, motor vehicle speeds, and pedestrian safety. A majority of these requests deal with street intersections, which would be enhanced with minor modifications to the geometry of the streets at the intersections. This project would fund improvements to various intersections involving realignment, curbing, signage and other traffic calming methods. These slight modifications would improve safety for both pedestrian and motor vehicle traffic. The Greenleaf Avenue and Lafayette Road intersection has been identified as a difficult intersection, which needs improvement.

TSM-17-PW/NH-76: PEIRCE ISLAND BRIDGE REPLACEMENT

Department	Public Works
Project Location	Peirce Island
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2023
Priority	C (can be placed on hold for after 6 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study – Peirce Island Bridge Inspection 2018	Y
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	Y
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	Y

Description: The Peirce Island Bridge deck was rehabilitated in 2015 and has been routinely inspected during construction of the Peirce Island WWTF Upgrade Project. The condition of the bridge is better than originally anticipated. With additional rehabilitation of the substructure and painting it is anticipated that the lifespan can be extended. This may allow the City to extend the time period to full replacement until 80% funding from the Department of Transportation Bridge Aid Program is available. The study will take place soon after the [Peirce Island Wastewater Treatment Plant Upgrade Project](#) is completed.

Eligible for Matching Funds with Limited Availability	

Description: This bridge is past its intended 50-year design life and it cannot handle heavy truck volumes and loads. The bridge needs to be replaced. Since the Portsmouth Senior Activity Center on Cottage Street is being redeveloped, residents have asked for the bridge to remain open if the median on the Route 1 Bypass is extended past Cottage Street to ensure emergency vehicle access to the Portsmouth Hospital.

TSM-19-PL-79: CATE STREET CONNECTOR

Department	Planning Department & Public Works
Project Location	Cate Street
Project Type	Other (Explained Below)
Commence FY	2020
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Moderate (\$50,001 to \$100,000)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study	
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project will provide direct access from Bartlett Street at the Railroad Bridge to Route 1 Bypass at Borthwick Avenue traffic signal. Costs for design and construction are being shared 50/50 with a private developer of the West End Yards development. Project has been funded through prior Capital Improvement Plans, but additional funding is required for upgrades and improvements to the Bartlett Street / Cate Street intersection.

TSM-20-PL-80: COAKLEY-BORTHWICK CONNECTOR ROADWAY

Department	Planning Department & Public Works
Project Location	Coakley Road and Borthwick Avenue
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2021
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study: NHDOT long range vision for the Bypass	Y
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	Y
Eligible for Matching Funds with Limited Availability	

Description: This project may be considered after the construction of the new Cate Street connector road. If determined to be necessary to improve traffic flow, the signal at the intersection of Coakley Road, Cottage Street and the Route 1 Bypass may be removed and the median on the Bypass extended through the intersection to prohibit left turns. To provide left turn access to and from the Bypass for the users of Coakley Road, this project would construct a connector roadway between Coakley Road and Borthwick Avenue between the Marriott and Granite Group Plumbing. Project is subject to NHDOT approval and would be contingent upon acquiring the necessary right-of-way.

TSM-21-PW-81: SOUTH STREET AT MIDDLE ROAD TRAFFIC CALMING AND PEDESTRIAN

ACCOMMODATIONS

Department	Public Works
Project Location	South Street between Middle Road and Monroe Street, and Middle Road between Spinney Road and South Street
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2024
Priority	B (needed within 4 to 6 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study	
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	Y
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The residents of South Street and Middle Road are requesting traffic calming measures between Spinney Road and Monroe Street. These measures include the reconfiguration of the intersection of South Street and Middle Road to limit the speed of vehicles turning onto South Street, construction of curbing and a sidewalk along the south side of Middle Road and South Street, and installation of a pedestrian crosswalk at the intersection. These improvements would improve safety and access for pedestrians destined to Portsmouth High School and area playgrounds.

Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The City began a Pavement Condition Management Program in 1993. An annual report updating the City’s pavement management system is completed as part of this program. City road conditions are evaluated, the road network conditions and budget requirements are analyzed, and road-paving programs are developed. The report provides recommended funding to maintain street conditions at the current level. These are capital costs. They are implemented over a two-year period with an expected life of 20 years. The Public Works operational budget includes maintenance work costs with an expected life of 10 years.

TSM-11-PW-83: ROADWAY: Pease International Tradeport Roadway Rehabilitation

PEASE INTERNATIONAL TRADEPORT
Fiscal Year 2021

STREETS LISTING:

- Arboretum Dr
- Airline Ave
- Durham St
- International Dr
- Manchester Square
- New Hampshire Ave
- Newfields St
- Pease Blvd
- Rochester Ave
- Rye St
- Miscellaneous

The list above represents a backlog of high priority pavement projects in the Pease International Tradeport as identified by the Pavement Management Index and other capital projects. The amount of work completed depends on available funds and construction bid prices.

TSM-15-PW-84: JUNKINS AVENUE

Department	Public Works
Project Location	Junkins Avenue
Project Type	Upgrade of Existing Facilities
Commence FY	2022
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study – Bicycle and Pedestrian Plan 2014	Y
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This project will be completed in conjunction with failing drainage pipes and culverts on the City Hall lower parking lot. The goal is to create a “complete street” as defined in the Complete Streets Policy.

TSM-20-PW-85: PINEHURST ROAD IMPROVEMENTS

Department	Public Works
Project Location	Pinehurst Road
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2024
Priority	C (can be placed on hold for after 6 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study:	
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: Residents have requested drainage improvements be constructed on Pinehurst Road to control stormwater runoff and prevent ponding in the lower elevation properties.

WATER

EF-02-WD-87: ANNUAL WATER LINE REPLACEMENT

Department	Public Works
Project Location	Citywide
Project Type	Rehabilitation of a Facility
Commence FY	Ongoing
Priority	O (Ongoing)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study – Water System Master Plan 2013	Y
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	Y
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The water distribution system consists of more than 150 miles of pipe. Many of the older pipes are 50 to 100 years old, undersized and at the end of their design life. Pipes are replaced programmatically as part of water specific capital projects, roadway reconstruction and prior to annual paving. This item will fund the purchase of pipe, valves and associated materials used to replace those pipes. Bond funds for large full road reconstruction projects.

EF-18-WD-91: WATER TRANSMISSION MAIN REPLACEMENT

Department	Public Works
Project Location	Citywide
Project Type	Rehabilitation of a Facility
Commence FY	2018
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study – Newington Transmission Main Alternative Draft Report 2017	Y
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	Y
Eligible for Matching Funds with Limited Availability	

Description: This project consists of design and construction of water transmission mains beneath Little Bay to replace existing mains, which are over 60 years old. Preliminary investigations of the existing water mains and valves have identified degraded conditions. Due to the importance of this water main, this project is necessary to ensure water is continuously supplied from Madbury to Portsmouth and service is not disrupted. FY21 funds will be used for permitting and design, and FY22 funds will be used for construction.

Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The City owns and operates 4 water storage tanks. These facilities are inspected routinely for the condition of the interior and exterior finishes. These funds cover the costs to repaint these tanks when needed. FY21 funds will cover the exterior painting of the Newington Booster tank. This work will be significant because the existing paint and primer contain lead. FY23 funds will be used to repaint the exterior of the Spinney Road tank.

EF-12-SD-94: PEASE WASTEWATER TREATMENT FACILITY

Department	Public Works
Project Location	Pease WWTF at Corporate Dr
Project Type	Upgrade of Existing Facilities
Commence FY	2017
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	High (\$100,000 or more)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study: Pease Wastewater Facility NPDES Permit Renewal 2019	
Improves Quality of Existing Services	Y
Provides Added Capacity to Existing Services	Y
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	Y
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: In 2019 the City submitted a wastewater permit renewal application to the Environmental Protection Agency (EPA) requesting an increase in design flow rate from 1.2 million gallons per day to 1.7 million gallons per day. This increase in flow rate at the treatment facility will support the build out of the Pease International Tradeport and provide capacity at the treatment facility for Lonza Biologics intended expansion. Planning for this upgrade has begun but full design and construction will not take place until the full details of an updated permit are provided by the EPA. The timing of this work is dependent upon the issuance of that permit. Replacement of aged equipment is underway with previous years' funding.

Eligible for Matching Funds with Limited Availability	

Description: The City has a combined sewer collection system and is required by the Environmental Protection Agency to implement a Long Term Control Plan to reduce and otherwise mitigate combined sewer overflows. The City is moving forward with a Supplemental Compliance Plan (SCP) that stipulates sewer separation projects to be constructed by 2023. The SCP projects are funded under other items. This project includes the costs for study, design and construction of other Long Term Control Plan projects, such as a Long Term Control Plan Update (beginning in 2023), infiltration and inflow identification and removal, sump pump removal programs, and other mitigations projects.

Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: This pumping station project will include a comprehensive upgrade to the City's largest pumping station to improve its operation and efficiency. The City purchased the adjacent property and will work on a site master plan for the area from the pump station to Peirce Island Road. The site master plan will be a public process. It will address the park, pump station and access to the water in this area. The new pump station will take into consideration the site use and improve the station's overall aesthetics to reduce impact to the neighborhood and sea level rise. FY23 funds will be used for conceptual design of the pump station.

Identified in Planning Document or Study: Wastewater Master Plan 2010 , Conceptual Regional Digester Evaluation, Summary of Study 2020	Y
Improves Quality of Existing Services	
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	
Eligible for Matching Funds with Limited Availability	

Description: The City investigated the concept of constructing a regional anaerobic digester facility at the Pease Wastewater Treatment Facility. An anaerobic digester would help to stabilize sewage sludges and other wastes, and reduce the overall volume sent to landfill. The studies concluded, however, that the capital and operation costs of an anaerobic digester at the Pease WWTF are prohibitively high and that the return on investment is longer than the design life of the facility. This item will not be funded, but the City will investigate other sludge minimization technologies as part of future upgrades at the treatment facility.

Description: This project funds work related to reconstruction on Islington Street. It will be completed in phases. Phase 1A is from the Route 1 Bypass to Albany Street and was previously funded. Phase 1B is from Albany Street to Dover Street and will be funded in FY21. Phase 2 is from Dover Street to Congress Street and is estimated to cost an additional \$6.9 million in FY24. The total project estimated cost is \$23,740,000.

The project includes water, sewer, drainage and streetscape modifications. Funding for this work will come from the water and sewer enterprise funds and the general fund (property taxes).

Phases 1A and 1B are required by the City's Supplemental Compliance Plan for sewer separation.

Description: The City is moving forward with a sewer separation project on Fleet Street. It is required through the City's Long Term Control Plan and Supplemental Compliance Plan.

The project includes water, sewer, drainage upgrades along with full streetscape rework and other pedestrian enhancements. Funding for this work will come from the water and sewer enterprise funds and the general fund (property taxes).

FY22 funding is for construction of the improvements on Fleet Street from Hanover Street to Court Street. FY23 funding is for a potential expansion of the project limits as determined during the design. The expansion could include portions of Congress Street, State Street and Vaughn Mall.

The Market Square upgrade project will be coordinated with this project.

Description: This project is the replacement of the Maplewood Avenue Bridge at the North Mill Pond. Previous planning for this project as an out-year has been expedited due to the critical need for replacement identified in the Bridge Master Plan.

The City is working to obtain the 80% NHDOT State Bridge Aid Program funds. If the funds are not available, general obligation bonding will be needed to complete this project.

Improvements will include new sea walls, replacement of the existing water main and gravity sewer.

COM-15-PW-103

CITYWIDE STORM DRAINAGE IMPROVEMENTS

Combined: General Fund-Water Fund-Sewer Fund

Department	Public Works
Project Location	Citywide
Project Type	Construction or expansion of a new public facility, street or utility
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Satisfy
Identified in Planning Document or Study: Stormwater Master Plan 2007	Y
Improves Quality of Existing Services	y
Provides Added Capacity to Existing Services	
Addresses Public Health or Safety Need	
Reduces Long-Term Operating Costs	
Alleviates Substandard Conditions or Deficiencies	
Provides Incentive to Economic Development	
Responds to Federal or State Requirement	Y
Eligible for Matching Funds with Limited Availability	

Description: The City owns and maintains approximately 61 miles of storm drains, 4,700 catch basins and 450 drain outfalls. Many of these structures are failing and need upgrades. Drainage improvements are replaced programmatically as part of specific capital projects, roadway reconstruction and prior to annual paving. In addition to pipe work, the existing stormwater ponds and swales need to be dredged of deposited materials to regain capacity to handle future storm events.

FY22 funding has identified funds for a new Stormwater Master Plan. The previous Stormwater Master Plan was done in 2007.

Funding for this work will come from the sewer enterprise fund and the general fund (property taxes).

WILLARD AVE

Combined: General Fund-Water Fund-Sewer Fund

Description: This project funds work related to the City's ongoing combined sewer separation. The project includes water, sewer and drainage upgrades along with streetscape modifications on Willard Avenue, Orchard Street, and a portion of Ash Street. A portion of Willard Avenue has already been reconstructed following sewer separation in 2015. It was previously identified for sewer separation and this project will complete this area of the Lincoln Avenue area drainage basin to Middle Street.

FY21 funds will be used for permitting and design, and FY22 funds will be used for construction.

Funding for this work will come from the water and sewer enterprise funds. Road restoration and sidewalks will be completed using available general funds allocated for annual paving and sidewalks.

Appendix I. Citizen Requested Projects

CIP Year	Location	Type	Description	Submitter	Staff Comment
2021	140-160 Court Street	Rehabilitation of a Facility	Requested improvements related to construction of new residential apartments (driveway), stormwater upgrades, pedestrian and park improvements, and electrical infrastructure	Craig Welch	These are being put forward as new CIP projects for FY21.
2021	1030 South Street	Construction or Expansion of a New Public Facility, Street or Utility	Implementation of granite curbing along the front of my house.	Linda Plummer	Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	City of Portsmouth Parks and Playgrounds		Following on the City's Open Space Planning process, conduct a Parks and Playgrounds Planning Study. The Study would examine and assess existing conditions and maintenance needs, the diversity of uses and programming, recreational value, equity of distribution throughout the City, opportunities for ecologically-focused design, etc. Looking at parks and playgrounds together as a collection of City assets, this study would result in actionable priorities that involve replacement/renovation of existing parks and playgrounds, and identify opportunities for constructing new ones. This set of planning goals should focus on providing a diverse and progressive set of landscape experiences throughout the City, using the latest in landscape and playscape design practices.	Alice Carey	Recommend addressing through CIP project for playground improvements, which is an existing project in the CIP.
2021	Creek Neighborhood	Construction or Expansion of a New Public Facility, Street or Utility	The repaving of the cross streets between Dennett and Clinton with associated sidewalk improvements	Johnathan Wyckoff	Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	Dondero Elementary (32 Van Buren Avenue)	Construction or Expansion of a New Public Facility, Street or Utility	Completion of Dondero Elementary School Nature Playground and Green Schoolyard Master Plan. Design and construction is ongoing, along with fundraising by the Dondero PTA. Considerable issues involving site drainage from the building and throughout the site have not been addressed to complete the full vision. City and School Department funding has previously matched private fundraising efforts, but more help is needed (beyond volunteer and PTA efforts) to realize the potential of this plan as a living/learning natural playscape and schoolyard environment, to benefit not only Dondero students but the surrounding neighborhood, for which this site serves as a public park. This request is for additional collaboration and leveraging of City resources and expertise for the completion of this important project.	Alice Carey	Recommend ongoing collaboration with School Department on this project.
2021	Elm Court	Construction or Expansion of a New Public Facility, Street or Utility	Paving of Elm Court	Jeffry Kisiel	Recommend addressing through the City's street paving, management, and rehabilitation program.

CIP Year	Location	Type	Description	Submitter	Staff Comment
2021	Foundry Garage	Other (Screens for the Garage Walls)	The Foundry Garage lightening system needs to be completed. We were told that screens would be implemented to dim the lights. The garage lighting is still a concern and problem for us across the pond.	Dawn Przychoazien	Recommend addressing through the City's operations and management funding for parking garage.
2021	Harvard Street	Other - Repaving of a Side Street	While the city has occasionally repaired potholes on this side street, it has not kept up with the traffic on this road which consists of both residential and city truck traffic, given that both the temporary dog park and the city pump/well are along this road. Requesting that the city completely repave this side street in what feels like a forgotten neighborhood.	Jane Begala	Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	Heritage Avenue	Other - Implement Bicycle and Pedestrian Plan	Complete bicycle and pedestrian plan for Heritage Road. This would allow for some access to Greenway trail, connecting Maple Haven when Route 1 improvements completed. Current state of Banfield Road and Ocean Road is unsafe for bicycle and pedestrian access to rail trail. Current shoulder on Route 1 wide enough to accommodate adult usage to Heritage, and then to trail. Further improvements would be needed for use by children or those uncomfortable biking on Route 1.	Sarah Jarvis	Recommend coordinating with NHDOT to pursue funding for connections along Ocean Road, which is a state roadway. Consider Heritage Road improvements once NHDOT Route 1 Corridor Improvements have been designed.
2021	Maplewood Avenue Bridge	Other (Amendment to Existing CIP project TSM-10-PW-65) Maplewood Avenue Bridge Replacement	Amend the current CIP project to address the impacts from climate change and the related sea level rise on the neighborhoods surrounding the North Mill Pond, by including this in the planning, design, and implementation of this project. See attachments hereto.	Douglas Woodward	Recommend incorporating into existing CIP project for Maplewood Ave bridge replacement.
2021	Market Square	Other - Adding an Underground Heating System on the Sidewalks in and Around Market Square	When Market Square is updated with underground utilities or sewer and water pipes please consider installing a sidewalk warming system to make it manageable in the winter. Holland, Michigan uses a water system from one of its utility plants. Not sure this is workable for Portsmouth, however, there are alternatives (similar to roof ice preventing electrical cords) that could be used. Below is an informational video on Holland's system, and a Chicago Tribune article. https://www.youtube.com/watch?v=XFWzDB7WvNI [https://www.youtube.com/watch?v=XFWzDB7WvNI] https://www.chicagotribune.com/news/ct-xpm-2014-02-01-ct-heated-sidewalks-met-20140201-story.html [https://www.chicagotribune.com/news/ct-xpm-2014-02-01-ct-heated-sidewalks-met-20140201-story.html]	Jane Nilles	Recommend considering as part of existing CIP project for Market Square.
2021	Middle Road	Design Work or Planning Study	Planning study on traffic calming and safety for autos, pedestrians, and bicycles on Middle Rd and South Street. Reconfigure intersection, sidewalks, street narrowing with parking.	Rebecca McBeath	This is being put forward as a new CIP project for FY21.
2021	Middle Road and South Street Triangle	Construction or Expansion of a New Public Facility, Street or Utility	Crosswalk paint and reflective sticks. 1. crosswalk at Spinney and Middle -- add reflecting sticks 2. crosswalk added to cross South Street where it meets the triangle island. Place markers liked used on Middle Street bike lanes in center and in center o	Rebecca McBeath	Corridor-wide traffic calming and streetscape improvements are being put forward as a new CIP project for FY21. Consider implementing interim measures through the City's Neighborhood Traffic Calming program.

CIP Year	Location	Type	Description	Submitter	Staff Comment
2021	Middle Road between Essex and Peverly	Rehabilitation of a Facility	Propose curbing along sidewalk as cars use sidewalk as parking and passing lane frequently and this is the neighborhood's pedestrian access to the plains park	Janelle Clark	Corridor-wide traffic calming and streetscape improvements are being put forward as a new CIP project for FY21.
2021	Mill Pond Way	Construction or Expansion of a New Public Facility, Street or Utility	Improvements to city owned property to create low impact kayak launching area, offstreet parking, picnic area, and signage to inform residents.	Johnathan Wyckoff	This is being put forward as a new CIP project for FY21.
2021	Mill Pond Way	Construction or Expansion of a New Public Facility, Street or Utility	Build picnic tables and shelters and paths similar to Four Tree Island to encourage public access to the mill pond. Access is extremely limited on that side of the pond.	Dave Beadling	Recommend considering as part of existing CIP project for Market Square.
2021	Northwest Street	Construction or Expansion of a New Public Facility, Street or Utility	Pave Existing dirt turn around at the end of Northwest Street near Pump Station.	Jeffry Kisiel	Recommend addressing through CIP project for park improvements, which is an existing project in the CIP.
2021	Pannaway Manor	Other (Complete Street Program)	Pannaway Manor was established in 1941 making utilities, roads, sidewalks and park past their designed lifespan. Sidewalks are not walkable and are noted in the 2020-2025 CIP plan as "high priority." Pannaway Manor is in need of a complete street makeover.	Tyler Dow	Recommend addressing through the City's annual sidewalk improvement program and bike ped plan implementation funding which are ongoing CIP projects.
2021	Portsmouth Foundry Garage	Other (Reduce Light Pollution at the Foundry Garage)	Efforts to reduce the light pollution from the Foundry Garage have not resolved the issue for residents around the garage and across the North Mill Pond. Further efforts are needed!	Elizabeth Jefferson	Recommend addressing through the City's operations and management funding for parking garage.
2021	South street between middle and Lafayette	Other (Pedestrian Safety, traffic calming, school/playground safety near the high school and Lafayette park playground)	The residents of south street have requested assistance from PTS for more than a year because of speed and volume concerns impacting safety in the area. Reconfiguration of the triangle at south/middle, sidewalks on the south side of south street, curbing to lower speeds and a crosswalk to aid pedestrians move around this neighborhood to access the high school and playground is requested.	Molly Shaw Wilson	This is being put forward as a new CIP project for FY20.
2021	Sparhawk and Burkitt	Other (4 way stop sign on Sparhawk and Burkitt)	Vehicles are speeding down the hill with many small children and families posing a grave danger. Once cars continue through Stark stop, they speed. With construction on Islington people are driving dangerously thru the neighborhood.	Dawn Przychoazien	Recommend addressing through the City's Neighborhood Traffic Calming program.
2021	Sparhawk Street	Construction or Expansion of a New Public Facility, Street or Utility	I was told by the city four years ago that Sparhawk Street would be repaved in 1-2 years. I have had two sprains from the Potholes, there is grass growing up in the STREET cracks and sidewalks, The sidewalk is unwalkable and the street is quite narrow, My property has a "temporary" retaining wall that was installed almost 5 years ago, When will we see some improvement in the west end?	Elizabeth Jefferson	Recommend addressing through the City's street paving, management, and rehabilitation program.

CIP Year	Location	Type	Description	Submitter	Staff Comment
2021	Sparkhawk and Burkitt	Other (Pave Roadway)	We've been waiting 11 years to have our road paved. It has been patched every other year and when we see ALL of the capital improvements all over town, we are beyond frustrated. We were told it was going to be paved 6 years ago.	Dawn Przychoazien	Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	The Woodlands	Construction or Expansion of a New Public Facility, Street or Utility	I'd like to see the entire city modernized and have high speed fiber available to all citizens. This project would further Portsmouth a leader in technology in New Hampshire. It would also save the citizens a significant amount of money in the long run as fiber internet is significantly cheaper and high quality than the Comcast provided Xfinity internet. Comcast charges \$90 for inconsistent 150mb download speeds and fiber costs about half that for 1TB of speed and would open the door for additional saving through using online streaming services instead of paying for cable. Some neighborhoods already have this service available and I think it's time for the entire town to have the opportunity to use fiber. Selfishly, if I had to choose a neighborhood to start with, I'd choose the Woodlands where the Comcast internet often drops and Comcast contractors don't seem to be improving it. They have also cut Consolidated Communication lines here so needless to say it hasn't been a good experience with Comcast being the only option for internet.	Jonathan Weeks	This project is not being recommended at this time.
2021	West Road (from Lafayette to Campus Drive)	Construction or Expansion of a New Public Facility, Street or Utility	Add a sidewalk on the south side of West Rd from Lafayette Rd to the Community Campus. The bicycle/ pedestrian master plan specifies sidewalks on both sides and bicycle lanes, but to start, a sidewalk on one side would be a huge improvement for access to the senior center, Families First, New Heights, and Seacoast Community School.	Matthew Glenn	Consider incorporating these improvements into the City's construction of fields off Campus Drive which is an existing CIP project.
2021	Willard Ave, Orchard St, Ash St, Specifically 86-88 Orchard St	Rehabilitation of a Facility	Alleviate ponding in low areas where Orchard St and driveways meet	Vicki Robinson	Recommend addressing through the City's street paving, management, and rehabilitation program.
2020	Atlantic Heights	Rehabilitation of a Facility	The Atlantic Heights Centennial Committee would like to identify a public amenity within the neighborhood that can be rehabilitated or built in honor of its centennial. The neighborhood has offered to fundraise. They are also interested in efforts that may make Maynard Park (now closed) safe and accessible to the public again.	Crisy Cardoso	The City is already coordinating with the Centennial Committee related to this request. Staff does not recommend adding a new CIP project for this item at this time.
2020	Cutts St, Central Ave, Beechwood St, Ashland St, Leslie Drive	Rehabilitation of a Facility	New/improved drainage, sidewalks, utility and pavement	Carrie Blake and Deirde Wallace	This is being put forward as a new CIP project for FY20.
2020	Cutts St, Central Ave, Beechwood St, Ashland St, Leslie Drive	Rehabilitation of a Facility	New/improved drainage, sidewalks, utility and pavement	Sergio Bonilla	This is being put forward as a new CIP project for FY20.
2020	Cutts St, Central Ave, Beechwood St, Ashland St, Leslie Drive	Rehabilitation of a Facility	New/improved drainage, sidewalks, utility and pavement	Eric C. Kovomhav	This is being put forward as a new CIP project for FY20.
2020	Cutts St, Central Ave, Beechwood St, Ashland St, Leslie Drive	Rehabilitation of a Facility	New/improved drainage, sidewalks, utility and pavement	Mark Lombardi	This is being put forward as a new CIP project for FY20.
2020	Cutts St, Central Ave, Beechwood St, Ashland St, Leslie Drive	Rehabilitation of a Facility	New/improved drainage, sidewalks, utility and pavement	Healthier and Phil Pettis	This is being put forward as a new CIP project for FY20.

CIP Year	Location	Type	Description	Submitter	Staff Comment
2020	Cutts St, Leslie Drive, Central Ave	Rehabilitation of a Facility	New/improved drainage, sidewalks, utility and pavement	Johanna Lyons	This is being put forward as a new CIP project for FY20.
2020	Harvard St	Rehabilitation of a Facility	Request for repaving of Harvard Street.	Jane Begala	Recommended addressing through the City's street paving, management, and rehabilitation program.
2020	Leslie Drive	Rehabilitation of a Facility	New/improved drainage, sidewalks, utility and pavement	Kyle Langelier	This is being put forward as a new CIP project for FY20.
2020	Livermore St	Rehabilitation of a Facility	Request made to improve drainage, sidewalks, piping, sidewalks and the road surface.	Charlotte and Robert Holster	Recommended addressing through the City's street paving, management, and rehabilitation program.
2020	Pinehurst Road	New Construction	Request for construction of stormwater accomodations on the road.	Everett and Carol Eaton	This is being put forward as a new CIP project for FY20.
2020	Pinehurst Road	New Construction	Request for construction of stormwater accomodations on the road.	Guy A Pronesti	This is being put forward as a new CIP project for FY20.
2020	Pinehurst Road	New Construction	Request for construction of stormwater accomodations on the road.	34 Residents of Pinehurst Road (Samuel Witherspoon, Margaret Witherspoon, Richard Walent, Sandra Walent, Daniel Wyand, Lena Wyand, Everett Eaton, Carol Eaton, Michael Magnant, Denise Magnant, David Underhill, Linda Underhill, Anne Weidman, Mark Weidman, Guy Pronesti, Danielle Pronesti, Vicki Boyd, Anna Kay Vorsteg, David Mulhern, Sally Mulhern, Kurt Korn, Beth Korn, April Weeks, Richard Antal, Paul Hansen, Darci Knowles, Rosemary York, Robert Stevens, Jennifer Stevens, James Carmichael, Lindsey Carmichael, John Evans, Margaret Evans)	This is being put forward as a new CIP project for FY20.
2020	Route 1 Bypass North	Rehabilitaton of a Facility	Request to review the Route 1 Bypass North Gateway including streetscape and access improvements.	Johanna Lyons	Staff is not recommending this project at this time. Route 1 Bypass is not a City roadway.
2020	Sagamore Road	New Construction	Adaptation of the West side of Sagamore Rd between Luster King Car Care and Cliff Rd into a Shared Use Path.	Ned Reynolds	Recommend addressing through the City's annual road striping and/or CIP bicycle/pedestrian plan implementation funding if City-owned right of way is adequate to accomodate proposed design.
2020	Taft Road - near Elwyn	Rehabilitation of a Facility	Request to address the road's drainage system.	Ken Brown	Part of existing CIP projects (Elwyn Park sidewalks and Elwyn Road sidepath), which will include evaluation of drainage improvements.
2020	To Be Determined	New Construction	Playground that is accessible, Inclusive, Barrier-Free and Boundless for Children with physical special needs.	Nikki Greenberg	Recommend addressing through the CIP project for playground improvements, which is an ongoing item in the CIP.
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Don and Becky Bardell	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	John A. Byron	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Jen Chapnick	This was added to the CIP in FY2019 (TSM-19-PW-74)

CIP Year	Location	Type	Description	Submitter	Staff Comment
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Alison Clode	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Bob Cook	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Anne M. D'Averson	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	William Davis	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Carla Dow	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Claire Dube	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Julia Gindele	This was put forward as a new CIP project for FY19.
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Benjamin Goss	This was put forward as a new CIP project for FY19.
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	James Gould	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Catherine Harris	This was added to the CIP in FY2019 (TSM-19-PW-74)

2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Barbara Timmons	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Sam and Amanda Tombarelli	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	New Construction	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Joann Wyckoff	This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Greenleaf Ave (Intersection at Greenleaf Ave and Lafayette Road)	Road Closure	Close access to Greenleaf Ave from Lafayette Road for Reasons of Safety	Stephen and Suzy Gagnon	Recommend evaluating through the City's Neighborhood Traffic Calming Program process.
2019	Islington St. Crosswalk	Crosswalk Installation	Desire for a crosswalk at Albany St on Islington St.	Sara Curry	This is already planned as part of the City's Islington Street Corridor project, which is currently in design. Construction is anticipated to begin in 2018.
2019	Maynard Park	Rehabilitation of a Facility	Expressing a desire to reopen the park under the I-95 Bridge after the high rise rehab project is complete including an extension similar to that of the Memorial Bridge.	Jon McBride	Once the rehab project on the bridge is complete, the City is planning to coordinate with the state about the potential for re-opening the park.
2019	Spaulding Turnpike (200)	Land Acquisition	Purchase land for public park space	Sarah Gatchell	Staff is not recommending this project at this time.
2019	Williard Ave	Rehabilitation of a Facility	Sidewalk Repair	Lennie Mullaney	Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Andrew Jarvis (Intersection of Andrew Jarvis Drive and Lafayette Road)	New Construction	Add new traffic signal	Stephen Bergeron	This was added to the CIP in FY2018 (TSM-PW-21)
2018	Elwyn Road	New Construction	Install safe bike and pedestrian path along road	Christine Groleau	This was added to the CIP in FY2018 (TSM-PW-15)
2018	Goodwin Park	New Construction	Update / install new lighting for Park	Tom Waterman	Recommended addressing through the CIP project for parks and playgrounds, which is an ongoing item in the CIP.
2018	Haven Park	Rehabilitation of a Facility	Park path improvements and lighting	Mary Cline	Recommend addressing through the CIP project for parks and playgrounds, which is an ongoing item in the CIP.

CIP Year	Location	Type	Description	Submitter	Staff Comment
2018	Madison Street (between State Street and Austin Street)	New Construction	Install curbs and sidewalks, plant street trees	Lee Frank	This is being put forward as a new CIP project for FY20.
2018	Manning Street (18)	New Construction	Reconstruct curbing and build sidewalk in front of 18 Manning St	Judith L. Hiller	Staff is not recommending this project at this time.
2018	Mark Street	New Construction	Repave street	Jason Jenkins	Recommended addressing through the City's street paving, management, and rehabilitation program.
2018	Parrot/ Rogers Street	Rehabilitation of a Facility	Reduce of corner radius at the intersection of Parrot and Rogers Street to slow traffic speeds	Jason Jenkins	Recommended evaluating through the City's Neighborhood Traffic Calming Program process.
2018	Penhallow St (126-128)	Rehabilitation of a Facility	Repair / regrade brick sidewalk in front of property	Cynthia & Everett Barnes	Recommended addressing through the City's annual sidewalk improvement program.
2018	Pleasant Street	Rehabilitation of a Facility	Repair/ replace sidewalks, improve street lighting, re-surface road, improve drainage	Mary Cline	This was added to the CIP in FY2018 (TSM-PW-31).
2018	Sagamore (from 150' south of little Harbor Road to Shaw Road including)	Rehabilitation of a Facility	Reconstruction of Sagamore Ave road and sidewalks from south of Little Harbor Road to Shaw Road	Board of Directors Tidewatch Condominium Association	Recommended holding this project for future consideration as a CIP project. Sidewalk issues may be addressed through the annual sidewalk program.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	New Construction	Extend sidewalk to Tuckers Cove neighborhood	Don and Judy Albertson	This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	New Construction	Extend sidewalk to Tuckers Cove neighborhood	Michael and Julie Bean	This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	New Construction	Extend sidewalk to Tuckers Cove neighborhood	Angie and Michael Bloom	This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	New Construction	Extend sidewalk to Tuckers Cove neighborhood	William Cassidy	This was put forward as a new CIP project for FY19.
