Addendum #1

RFP #17-14  
Emergency Call Stations

This Addendum forms part of the original document marked: RFP #17-14 Emergency Call Stations

The following question has been asked and answered.

- 1: Q: What are the total number of units that will be installed?  
A: **The contractor is to determine the number of units necessary to provide the optimum security level. A goal would be to have at least one call station visible from any location in the garage. The contractor is free to use other criteria for security as long as it can be justified to the City.**
- 2: Q: What is the warranty period?  
A: **The contractor is to tell the City what warranty comes with their work and installed equipment.**
- 3: Q: Will the City be willing to do a leased option which includes maintenance?  
A: **Yes.**
- 4: Q: Will there be a scheduled walkthrough? Or is it on us to visit the site?  
A: **Contractors are welcome to visit the site, and are not required to attend a scheduled walkthrough. They should check in with the garage manager, Tim Cherry (603-431-5904.)**

All else remains unchanged from original request for proposal document.

Please acknowledge this addendum within your proposal, failure to do so may subject a vendor to disqualification.
