RFP #22-13**

PROFESSIONAL CONSTRUCTION AND LANDSCAPE DESIGN SERVICES
MARKET STREET EXTENSION GATEWAY IMPROVEMENTS

ADDENDUM NUMBER 1

Issued: March 12, 2013

This Addendum forms part of the original document marked: **RFP #22-13 Professional Construction and Landscape Design Services, Market Street Extension Gateway Improvements**

A. Project Area Modifications

1. The project area has been modified to include the Market Street corridor between the Albacore Park access road and Kearsarge Way and the additional area between Nobles Island and Russell St. The City will be making modifications to the traffic intersections at Nobles Island and Russell Street in the future so those intersections are excluded from the project area.
2. The mini park and overlook area west of Market Street gateway and south of Nobles Island identified in the Market Street Gateway Improvements conceptual plan prepared by The Cecil Group and dated February 2008 as “New gateway public park with shade trees, walks, benches, lawns and overlook,” is included in the project area.
3. The proposed park area east of Market Street and south of Michael Succi Drive identified in the Market Street Gateway Improvements conceptual plan prepared by The Cecil Group and dated February 2008 is excluded from project area due to the ongoing design work for the Sarah Long Bridge replacement project.
4. The “New public walk to Piscataqua River Overlook,” on the NH Port Authority property identified in the Market Street Gateway Improvements conceptual plan prepared by The Cecil Group and dated February 2008 is excluded from project area.
5. The revised project area is depicted in the aerial map entitled “**Attachment 2 Rev, RFP #22-13, Market Street Gateway Improvements Project Area**” which is attached to this addendum.

B. Elimination of TASK 2 Preparation of Survey from RFP #22-13 Scope of Services

1. The City shall provide an existing features survey of the area showing property boundary, topography, wetlands, and all existing features needed for a basis for the design.

Please acknowledge this addendum within your proposal, failure to do so may subject a Proposer to disqualification.

End of Addendum #1.
