

ADDENDUM NUMBER 2:
RFP 45-13
Flagging Services
June 11, 2013

This Addendum forms part of the original document marked: RFP 45-13 Flagging Services

The following question has been asked and answered.

Question: When flaggers are called out at night, do you supply lights or is it our responsibility to supply lighting? Do you want hourly breakdown for day, night, weekend, and holiday callouts? Will you require sign packages or will you supply signage?

Answer: Lights and sign packages are the responsibility of the organization requesting the flagger support. Night time flagging will require increased reflectivity of clothing worn by flaggers per MUCTD. When submitting prices for flagging services, you should indicate how you intend to charge your hours

All else remains unchanged from original document.

Please acknowledge receipt of this addendum within your proposal, failure to do so may subject a proposer to disqualification.
