

Instructional Resources

All instructional materials will be selected based upon the ability to provide quality learning experiences for students in that they:

- Enrich and support the curriculum
- Stimulate growth in knowledge, literary appreciation, aesthetic value and ethical standards
- Provide background information to enable students in making intelligent judgments
- Present opposing sides of controversial issues
- Match the appropriate skill levels of pupils
- Depict, in an accurate and unbiased way, the cultural diversity in the United States

The Administration and/or teachers may select instructional materials from a variety of media, including, but not limited to, books, online/internet materials, equipment, newspapers, other media and instructional technologies. Selection of such materials should be made only after a determination that such materials are age appropriate, provide quality learning experiences and fit within the School Department's educational goals and mission.
